Blackstone and His Critics - Anthony Page 2018-04-19

William Blackstone's Commentaries on the Laws of England (1765-69) is perhaps the most elegant and influential legal text in the history of the common law. By one estimate, Blackstone

has been cited well over 10,000 times in American judicial opinions alone. Prominent in recent reassessment of Blackstone and his works, Wilfrid Prest also convened the Adelaide symposia which have now generated two collections of essays: Blackstone and his Commentaries: Biography, Law, History (2009), and Re-Interpreting Blackstone's Commentaries: A Seminal Text in National and International Contexts (2014). This third collection focuses on Blackstone's critics and detractors. Leading scholars examine the initial reception of the Commentaries in the context of debates over law, religion and politics in eighteenth-century Britain and Ireland. Having shown Blackstone's volumes to be a contested work of the Enlightenment, the remaining chapters assess critical responses to Blackstone on family law, the status of women and legal education in Britain and America. While Blackstone and his Commentaries have been widely lauded and memorialised in marble, this volume highlights

the extent to which they have also attracted censure, controversy and disparagement.

Liberty and Security - Conor Gearty
2013-04-03

All aspire to liberty and security in their lives but few people truly enjoy them. This book explains why this is so. In what Conor Gearty calls our 'neo-democratic' world, the proclamation of universal liberty and security is mocked by facts on the ground: the vast inequalities in supposedly free societies, the authoritarian regimes with regular elections, and the terrible socio-economic deprivation camouflaged by cynically proclaimed commitments to human rights. Gearty's book offers an explanation of how this has come about, providing also a criticism of the present age which tolerates it. He then goes on to set out a manifesto for a better future, a place where liberty and security can be rich platforms for everyone's life. The book identifies neo-democracies as those places which play at democracy so as to disguise the

injustice at their core. But it is not just the new 'democracies' that have turned 'neo', the so-called established democracies are also hurtling in the same direction, as is the United Nations. A new vision of universal freedom is urgently required. Drawing on scholarship in law, human rights and political science this book argues for just such a vision, one in which the great achievements of our democratic past are not jettisoned as easily as were the socialist ideals of the original democracy-makers.

Blackstone's International Human Rights

Documents - Alison Bisset 2014

This work contains all the relevant regional and international instruments, and covers the essential United Nations resolutions and international conventions.

Discovering Indigenous Lands - Robert J. Miller
2012-01-05

This book presents new material and shines fresh light on the under-explored historical and legal evidence about the use of the doctrine of discovery in Australia, Canada, New Zealand and

the United States. North America, New Zealand and Australia were colonised by England under an international legal principle that is known today as the doctrine of discovery. When Europeans set out to explore and exploit new lands in the fifteenth through to the twentieth centuries, they justified their sovereign and property claims over these territories and the indigenous peoples with the discovery doctrine. This legal principle was justified by religious and ethnocentric ideas of European and Christian superiority over the other cultures, religions, and races of the world. The doctrine provided that newly-arrived Europeans automatically acquired property rights in the lands of indigenous peoples and gained political and commercial rights over the inhabitants. The English colonial governments and colonists in North America, New Zealand and Australia all utilised this doctrine, and still use it today to assert legal rights to indigenous lands and to assert control over indigenous peoples. Written

by indigenous legal academics - an American Indian from the Eastern Shawnee Tribe, a New Zealand Maori (Ngati Rawkawa and Ngai Te Rangī), an Indigenous Australian, and a Cree (Neheiyiwak) in the country now known as Canada, *Discovering Indigenous Lands* provides a unique insight into the insidious historical and contemporary application of the doctrine of discovery.

Designed specifically for students, 'Blackstone's Statutes' lead the market in providing a carefully

selected, regularly updated, and well sourced collection of legislation for the core subjects and major options offered on the law syllabus.

The Revolution in Freedoms of Press and Speech - Wendell Bird 2020-02-28

This book discusses the revolutionary broadening of concepts of freedom of press and freedom of speech in Great Britain and in America in the late eighteenth century, in the period that produced state declarations of rights and then the First Amendment and Fox's Libel Act. The conventional view of the history of freedoms of press and speech is that the common law since antiquity defined those freedoms narrowly, and that Sir William Blackstone in 1769, and Lord Chief Justice Mansfield in 1770, faithfully summarized the common law in giving a very narrow definition of those freedoms as mere liberty from prior restraint and not liberty from punishment after something was printed or spoken. This book proposes, to the contrary, that Blackstone

carefully selected the narrowest definition that had been suggested in popular essays in the prior seventy years, in order to oppose the growing claims for much broader protections of press and speech. Blackstone misdescribed his summary as an accepted common law definition, which in fact did not exist. A year later, Mansfield inserted a similar definition into the common law for the first time, also misdescribing it as a long-accepted definition, and soon misdescribed the unique rules for prosecuting sedition as having an equally ancient pedigree. Blackstone and Mansfield were not declaring the law as it had long been, but were leading a counter-revolution about the breadth of freedoms of press and speech, and cloaking it as a summary of a narrow common law doctrine that in fact was nonexistent. That conflict of revolutionary view and counter-revolutionary view continues today. For over a century, a neo-Blackstonian view has been dominant, or at least very influential, among

historians. Contrary to those narrow claims, this book concludes that the broad understanding of freedoms of press and speech was the dominant context of the First Amendment and of Fox's Libel Act, and that it enjoyed greater historical support.

Blackstone's Statutes on Criminal Law

2021-2022 - Matthew Dyson 2021-07-22

Fully revised and updated to include all recent legislation, this edition provides comprehensive coverage of all the major criminal law documents needed by undergraduates. It also includes unannotated primary and secondary legislation and detailed tables of content to aid quick and efficient research.

Blackstone's Guide to the Consumer Rights Act

2015 - Denis Barry 2016-01-21

The Consumer Rights Act is a vital and far-reaching piece of legislation containing provisions specific to contract and consumer law, criminal law, and competition law. It sets out a much-needed framework to consolidate the

key consumer rights surrounding contracts for goods, services, and digital content, as well as the law relating to unfair terms in consumer contracts. The Act introduces easier routes for consumers and SMEs to challenge anti-competitive behavior through the Competition Appeal Tribunal, as well as confirming enforcers' powers to investigate potential breaches of consumer law. Ultimately, the Act gives civil courts and public enforcers greater flexibility to take the most appropriate action for consumers when dealing with breaches of consumer law. This Blackstone's Guide, written by a team of leading experts in the field, provides clear and concise coverage of the Consumer Rights Act's history, scope, and application. It is the complete resource for anyone looking for an introduction to this wide-ranging Act. The Blackstone's Guide Series delivers concise and accessible books covering the latest legislative changes and amendments. Published soon after enactment, they offer expert commentary by leading names

on the scope, extent and effects of the legislation, plus a full copy of the Act itself. They offer a cost-effective solution to key information needs and are the perfect companion for any practitioner needing to get up to speed with the latest changes.

Human Rights and the End of Empire - Alfred William Brian Simpson 2004

The European Convention on Human Rights of 1950 established the most effective international system of human rights protection ever created. This is the first book that gives a comprehensive account of how it came into existence, of the part played in its genesis by the British government, and of its significance for Britain in the period between 1953 and 1966.
