Στην υγειά μας. Studi in omaggio a Giorgio Bejor - Claudia Lambrugo 2020-12-17

Il volume *Στην υγειά μας* è l'omaggio festoso e benaugurante che un gruppo folto di amici e colleghi dell'Università degli Studi di Milano e di altri Atenei italiani ha inteso offrire a Giorgio Bejor in segno di stima e affetto al momento del suo pensionamento. Vi sono raccolte riflessioni su temi tanto ampi quanto lo sono i più cari interessi del festeggiato: dai problemi di storia dell'arte ai grandi scavi in Italia e nel Mediterraneo; dai singoli personaggi e oggetti della cultura classica alla profonda passione di Giorgio Bejor per musica, cinema e teatro. La miscellanea, a prescindere dal contenuto rigorosamente scientifico, nasce dall'idea condivisa di un brindisi amicale: *Στην υγειά μας*, caro Giorgio!

Lizzie Siddal - Lucinda Hawksley 2017-01

The supermodel did not arrive when Twiggy first donned false eyelashes; the concept began more than 100 years previously, with a young artists' model whose face captivated a generation. Saved from the drudgery of a working-class existence by a young Pre-Raphaelite artist, Lizzie Siddal rose to become one of the most famous faces in Victorian Britain and a pivotal figure of London's artistic world, until tragically ending her young life in a laudanum-soaked suicide in 1862. In the twenty-first century, even those who do not know her name always recognise her face: she is Millais' doomed Ophelia and Rossetti's beatified Beatrice. With many parallels in the modern-day world of art and fashion, this biography takes Lizzie from the background of Dante Rossetti's life and, finally, brings her to the forefront of her own.

Who's in the Picture? - Susie Brooks 2022-07-21

An engaging first search-and-find art book that helps young children enjoy and understand works of art.

Storia del riso e della derisione - Georges Minois 2004

Botticelli Past and Present - Ana Debenedetti 2019-01-08

The recent exhibitions dedicated to Botticelli around the world show, more than ever, the significant and continued debate about the artist. *Botticelli Past and Present* engages with this debate. The book comprises four thematic parts, spanning four centuries of Botticelli's artistic fame and reception from the fifteenth century. Each part comprises a number of essays and includes a short introduction which positions them within the wider scholarly literature on Botticelli. The parts are organised chronologically beginning with discussion of the artist and his working practice in his own time, moving onto the progressive rediscovery of his work from the late eighteenth to the turn of the twentieth century, through to his enduring impact on contemporary art and design. Expertly written by researchers and eminent art historians and richly

illustrated throughout, the broad range of essays in this book make a valuable contribution to Botticelli studies.

Mannerism - John K. G. Shearman 1986

The Preparation of the Novel - Roland Barthes 2011

Completed just weeks before his death, the lectures in this volume mark a critical juncture in the career of Roland Barthes, in which he declared the intention, deeply felt, to write a novel. Unfolding over the course of two years, Barthes engaged in a unique pedagogical experiment: he combined teaching and writing to "simulate" the trial of novel-writing, exploring every step of the creative process along the way. Barthes's lectures move from the desire to write to the actual decision making, planning, and material act of producing a novel. He meets the difficulty of transitioning from short, concise notations (exemplified by his favorite literary form, haiku) to longer, uninterrupted flows of narrative, and he encounters a number of setbacks. Barthes takes solace in a diverse group of writers, including Dante, whose *La Vita Nuova* was similarly inspired by the death of a loved one, and he turns to classical philosophy, Taoism, and the works of Fran ois-Ren Chateaubriand, Gustave Flaubert, Franz Kafka, and Marcel Proust. This book uniquely includes eight elliptical plans for Barthes's unwritten novel, which he titled *Vita Nova*, and lecture notes that sketch the critic's views on photography. Following on *The Neutral: Lecture Course at the Coll ge de France* (1977-1978) and a third forthcoming collection of Barthes lectures, this volume provides an intensely personal account of the labor and love of writing.

Bobo Piccoli - Roberta Cloe Piccoli 2021

Florence - Guido Zucconi 1995

This book looks at how the human brain got the capacity for language and how language then evolved. Its four parts are concerned with different views on the emergence of language, with what language is, how it evolved in the human brain, and finally how this process led to the properties of language. Part I considers the main approaches to the subject and how far language evolved culturally or genetically. Part II argues that language is a system of signs and considers how these elements first came together in the brain. Part III examines the evidence for brain mechanisms to allow the formation of signs. Part IV shows how the book's explanation of language origins and evolution is not only consistent with the complex properties of languages but provides the basis for a theory of syntax that offers insights into the learnability of language and to the nature of constructions that have defied decades of linguistic analysis, including including subject-verb inversion in questions, existential constructions, and long-distance dependencies. Denis Bouchard's outstandingly original account will interest linguists of all persuasions as well as cognitive scientists and others interested in the evolution of language.

Funny Machines for George the Sheep - 2014-05-08

This delightful introduction to the inventions of Leonardo da Vinci teaches young readers about the painstaking but rewarding art of design and discovery. George the sheep is happy living outside in his meadow except for one thing: when it rains, he shrinks to the size of a mouse; when the sun comes out he

grows enormous. Befuddled, his owner Leon sets out to find a way to shelter George from the rain. A huge set of bat wings to dry his fur? A wheeled chariot to keep out the wet? Finally he alights on the perfect solution—a large umbrella. But when the wind plays havoc with this contraption Leon must put pencil to paper once again to come up with a solution. Through careful measuring, sketching, and a truly indefatigable spirit, Leon, like his fifteenth-century namesake, solves the kinds of problems that have challenged inventors throughout history. Cleverly invoking the mechanical genius of Leonardo da Vinci, this delightful children's book explores the art of invention through illustrations and an entertaining story.

Imagined States - Luisa Del Giudice 2001-06

An international ensemble of folklore scholars looks at varied ways in which national and ethnic groups have traditionally and creatively used imagined states of existence—some idealizations, some demonizations—in the construction of identities for themselves and for others. Drawing on oral traditions, especially as represented in traditional ballads, broadsides, and tale collections, the contributors consider fertile landscapes of the mind where utopias overflow with bliss and abundance, stereotyped national and ethnic caricatures define the lives of "others," nostalgia glorifies home and occupation, and idealized and mythological animals serve as cultural icons and guideposts to harmonious social life.

On Ugliness - Umberto Eco 2011

Beauty and ugliness are two sides of the same coin; by ugliness we usually mean the opposite of beauty and we often define the first in order to understand the nature of the second. But the various depictions of ugliness over the centuries are richer and more unpredictable than is commonly thought. The striking images and anthological quotations in *On Ugliness* lead us on an extraordinary journey through the passions, terrors and nightmares of almost three thousand years, where acts of rejection go hand in hand with touching instances of empathy, and an aversion to deformity is accompanied by seductive violations of all classical canons. With his characteristic wit and erudition, Umberto Eco draws on examples in art and literature from ancient times to the present day. Abundantly illustrated with demons, madmen, vile enemies and disquieting presences, with freaks and the living dead, *On Ugliness* is conceived for a vast and diverse readership, and is an invaluable companion volume to *On Beauty*.

The Keith Haring Show - Gianni Mercurio 2005

Art icon of the 1980s, Keith Haring first gained attention in the late 1970s for his drawings in the New York City subways. Over the next decade his subway graffiti, murals, sculptures and paintings gained worldwide recognition. Harings meteoritic artistic career spanned from 1980 to 1990, and in this brief period his boundless energy led him to produce an enormous quantity of legendary works. Here Harings work is re-examined from the perspective of his relations not just with Pop Art and the Neo-Pop movement, but also with Flemish painting and the historic avant-garde movements, reflecting the evolution of his creative poetics and the legacy he left.

[Bigger Message](#) - Martin Gayford 2016

Natura morta italiana tra Cinquecento e Settecento - Mina Gregori 2002

Casa Vogue - 1987

The Nature of Still Life - Peter Weiermair 2001

Postproduction - Nicolas Bourriaud 2005-01-01

The French writer Nicolas Bourriaud discusses how, since the early nineties, an ever increasing number of artworks have been created on the basis of preexisting works; more and more artists interpret, reproduce, re-exhibit, or use works made by others or available cultural products. This art of postproduction seems to respond to the proliferating chaos of global culture in the information age, which is characterized by an increase in the supply of works and the art worlds annexation of forms ignored or disdained until now. First published in 2002, this 2nd edition contains a new foreword where the author reflects on how the art of postproduction developed over the last couple of years. Nicolas Bourriaud is the co-director of the Palais de Tokyo in Paris. His previous books include *L'ère tertiaire* (Flammarion), *Ésthétique relationnelle* (Presses du

réel), and *Formes de vie* (Denoël).

Canon Pietro Casola's Pilgrimage to Jerusalem in the Year 1494 - Pietro Casola 1907

Doodle Cook - Hervé Tullet 2011

Young art-chefs - your moment has come! The table is set and your ingredients await: an empty plate, color pens and - most important of all - your imagination! Now, add a dash of squiggles there, a handful of zig zags for flavor - and voila!

[Rabisch](#) - Giacomo Berra 1998

Kuniyoshi - Rossella Menegazzo 2018-10-04

Recognized as one of the most interesting and vibrant artists from the Edo period, Utagawa Kuniyoshi (1797-1861) is a major exponent of ukiyo-e in the early 1800s and trained under the master Utagawa Toyokuni. His fame is tied to the series of polychrome xylographs that illustrate the 108 heroes from the novel *Suikoden* (Brigands), which became a bestseller in China and Japan in the late 1700s, promoting the imagery of a band of brigands who defend the people suppressed by injustice and government corruption. Violent, powerful, armed people with muscular bodies covered in tattoos that today inspire manga, anime, tattoo artists and illustrators across the world. Kuniyoshi affirmed the genre of warrior prints, but he was also interested in portraits of female beauties, kabuki actors, landscapes, children and ghosts, another greatly admired genre in Japan. Nonetheless, his name is above all associated with illusion, with shadows and Arcimboldo-like composite figures, figures within figures and parodies of stories and battles with animals, objects, sweets, food. His images are fantastical, baroque, rich in colour, of great detail, with imposing characters and dynamic actions. A versatile and intriguing figure for the variety of subjects, from female beauties and monsters to animals and heroes, and for the impressive technique that gave life to a school carried forth for generations.

[Atti della R. Accademia della Crusca](#) - 1892

[Christmas in the Stable](#) - Astrid Lindgren 1963

A mother tells the Christmas story to her young daughter, who sees the events as if they were happening in their own stable.

Gaspere Tagliacozzi and Early Modern Surgery - Paolo Savoia 2019-12-12

This book uses the work of Bolognese physician and anatomist Gaspere Tagliacozzi to explore the social and cultural history of early modern surgery. It discusses how Italian and European surgeons' attitudes to health and beauty – and how patients' gender – shaped views on the public appearance of the human body. In 1597, Gaspere Tagliacozzi published a two-volume book on reconstructive surgery of the mutilated parts of the face. Studying Tagliacozzi's surgery in context corrects widespread views about the birth of plastic surgery. Through a combination of cultural history, microhistory, historical epistemology, and gender history, this book describes the practice and practitioners considered to be at the periphery of the "Scientific Revolution." Historical themes covered include the writing of individual cases, hegemonic and subaltern forms of masculinity, concepts of the natural and the artificial, emotional communities and moral economies of pain, and the historical anthropology of the culture of beauty and the face and its disfigurements. The book is essential reading for upper-level students, postgraduates, and scholars working on the history of medicine and surgery, the history of the body, and gender and cultural history. It will also appeal to those interested in the history of beauty, urban studies and the Renaissance period more generally.

Naturalia et mirabilia - Adalgisa Lugli 2005

Bibliografia nazionale italiana - 1979

Il giardino delle Esperidi - Centro studi giardini storici e contemporanei (Pietrasanta, Italy). Colloquio internazionale 1996

Il mondo di Arcimboldo - Cristina Cappa Legora 2011

Firmin - Sam Savage 2011-08-24

In the basement of a Boston bookstore, Firmin is born in a shredded copy *Finnegans Wake*, nurtured on a diet of *Zane Grey*, *Lady Chatterley's Lover*, and *Jane Eyre* (which tastes a lot like lettuce). While his twelve siblings gnaw these books obliviously, for Firmin the words, thoughts, deeds, and hopes—all the literature he consumes—soon consume him. Emboldened by reading, intoxicated by curiosity, foraging for food, Firmin ventures out of his bookstore sanctuary, carrying with him all the yearnings and failings of humanity itself. It's a lot to ask of a rat—especially when his home is on the verge of annihilation. A novel that is by turns hilarious, tragic, and hopeful, *Firmin* is a masterpiece of literary imagination. For here, a tender soul, a vagabond and philosopher, struggles with mortality and meaning—in a tale for anyone who has ever feasted on a book...and then had to turn the final page. NOTE: This edition does not include illustrations.

Discoveries and Opinions of Galileo - Galileo 1957-04-01

Directing his polemics against the pedantry of his time, Galileo, as his own popularizer, addressed his writings to contemporary laymen. His support of Copernican cosmology, against the Church's strong opposition, his development of a telescope, and his unorthodox opinions as a philosopher of science were the central concerns of his career and the subjects of four of his most important writings. Drake's introductory essay place them in their biographical and historical context.

Deep Time of the Media - Siegfried Zielinski 2006

A quest to find something new by excavating the deep time of media's development - not by simply looking at new media's historic forerunners, but by connecting models, machines, technologies, and accidents that have until now remained separated. *Deep Time of the Media* takes us on an archaeological quest into the hidden layers of media development - dynamic moments of intense activity in media design and construction that have been largely ignored in the historical-media archaeological record. Siegfried Zielinski argues that the history of the media does not proceed predictably from primitive tools to complex machinery; in *Deep Time of the Media*, he illuminates turning points of media history - fractures in the predictable - that help us see the new in the old. Drawing on original source materials, Zielinski explores

the technology of devices for hearing and seeing through two thousand years of cultural and technological history. He discovers the contributions of dreamers and modelers of media worlds, from the ancient Greek philosopher Empedocles and natural philosophers of the Renaissance and Baroque periods to Russian avant-gardists of the early twentieth century. separated, Zielinski writes. He describes models and machines - including a theatre of mirrors in sixteenth-century Naples, an automaton for musical composition created by the seventeenth-century Jesuit Athanasius Kircher, the eighteenth-century electrical tele-writing machine of Joseph Mazzolari, among others - that make this connection. Uncovering these moments in the media-archaeological record, Zielinski says, brings us into a new relationship with present-day moments; these discoveries in the deep time media history shed light on today's media landscape and may help us map our expedition to the media future.

Giornale della libreria, della tipografia, e delle arti e industrie affini - 1980

Atti - Accademia della Crusca 1892

Basquiat - Jean-Michel Basquiat 2010

American artist Jean-Michel Basquiat (1960-1988) quickly became one of art history's most luminescent personalities; his friendships with Andy Warhol, Keith Haring, and Madonna, as well as his tragic death at the age of twenty-seven, are the stuff of legend. This retrospective publication traces the artist's unique career and pinpoints his important position in art history. Basquiat's works are marked by the kind of intensity and energy that also determined the course of his brief life. In just eight years--comparable to the career of Egon Schiele--Basquiat not only managed to create an extensive oeuvre, but also to establish new figurative and expressive elements alongside Conceptual and Minimal Art. At the age of twenty-one, he became the youngest artist ever to be invited to the documenta, while his work also anticipated that of Germany's Junge Wilde movement and the art of the nineties. (German edition ISBN 978-3-7757-2592-7) Exhibition schedule: Fondation Beyeler, Riehen/Basel, May 9-September 5, 2010

L'Œil - Georges Bernier 1963

Some issues have separately numbered section: L'Oeil du décorateur.
