

Liddell Harts History Of The First World War

When people should go to the book stores, search start by shop, shelf by shelf, it is truly problematic. This is why we provide the ebook compilations in this website. It will completely ease you to see guide **Liddell Harts History Of The First World War** as you such as.

By searching the title, publisher, or authors of guide you truly want, you can discover them rapidly. In the house, workplace, or perhaps in your method can be every best area within net connections. If you point toward to download and install the Liddell Harts History Of The First World War , it is unquestionably simple then, in the past currently we extend the partner to purchase and make bargains to download and install Liddell Harts History Of The First World War fittingly simple!

History of the Second World War - B. H. Liddell Hart 2006-05-01

The Art of War in World History - Gérard Chaliand 1994-10-07

This engrossing anthology gathers together a remarkable collection of writings on the use of strategy in war. Gérard Chaliand has ranged over the whole of human history in assembling this collection—the result is an integration of the annals of military thought that provides a learned framework for understanding global political history. Included are writings from ancient and modern Europe, China, Byzantium, the Arab world, Persia, and the Ottoman Empire. Alongside well-known militarists such as Julius Caesar, Napoleon, Walter Raleigh, Rommel, and many others are "irregulars" such as Cortés, Lawrence of Arabia, and even Gandhi. Contrary to standard interpretations stressing competition between land and sea powers, or among rival Christian societies, Chaliand shows the great importance of the struggles between nomadic and sedentary peoples, and of the conflicts between Christianity and Islam. With the invention of firepower, a relatively recent occurrence in the history of warfare, modes of organization and strategic concepts—elements reflecting the nature of a society—have been key to how war is waged. Unparalleled in its breadth, this anthology will become the standard work for understanding a fundamental part of

human history—the conduct of war. "This anthology is not only an unparalleled corpus of information and an aid to failing memory; it is also and above all a reliable and liberating guide for research. . . . Ranging "from the origins to the nuclear age," it compels us to widen our narrow perspectives on conflicts and strategic action and open ourselves up to the universal."—from the Foreword

The Evolution of Modern Grand Strategic Thought - Lukas Milevski 2016

In strategic studies and international relations, grand strategy is a frequently-invoked concept. Yet, despite its popularity, it is not well understood and it has many definitions, some of which are even mutually contradictory. This state of affairs undermines its usefulness for scholars and practitioners alike. Lukas Milevski aims to remedy this situation by offering a conceptual history of grand strategy in the English language, analysing its evolution from 1805 to the present day in the writings of its major proponents. In doing so, he seeks to clarify the meaning and role of the concept, both theoretically and practically, and shed light on its continuing utility today.

Cataclysm - David Stevenson 2009-03-25

David Stevenson's widely acclaimed history of World War I changes forever our understanding of that pivotal conflict. Countering the

commonplace assumption that politicians lost control of events, and that the war, once it began, quickly became an unstoppable machine, Stevenson contends that politicians deliberately took risks that led to war in July 1914. Far from being overwhelmed by the unprecedented scale and brutality of the bloodshed, political leaders on both sides remained very much in control of events throughout. According to Stevenson, the disturbing reality is that the course of the war was the result of conscious choices -- including the continued acceptance of astronomical casualties. In fluid prose, Stevenson has written a definitive history of the man-made catastrophe that left lasting scars on the twentieth century. Cataclysm is a truly international history, incorporating new research on previously undisclosed records from governments in Europe and across the world. From the complex network of secret treaties and alliances that eventually drew all of Europe into the war, through the bloodbaths of Gallipoli and the Somme, to the arrival of American forces, and the massive political, economic, and cultural shifts the conflict left in its wake, Cataclysm is a major revision of World War I history.

Strategy - Captain B. H. Liddell Hart 2016-07-26

This is the classic book on war as we know it. During his long life, Basil H. Liddell Hart was considered one of the world's foremost military thinkers—a man generally regarded as the “Clausewitz of the 20th century.” Strategy is a seminal work of military history and theory, a perfect companion to Sun-tzu's The Art of War and Carl von Clausewitz's On War. Liddell Hart stressed movement, flexibility, and surprise. He saw that in most military campaigns dislocation of the enemy's psychological and physical balance is prelude to victory. This dislocation results from a strategic indirect approach. Reflect for a moment on the results of direct confrontation (trench war in WWI) versus indirect dislocation (Blitzkrieg in WWII). Liddell Hart is also tonic for business and political planning: just change the vocabulary and his concepts fit. - Print ed. “The most important book by one of the outstanding military authorities of our time.”—Library Journal

History of the First World War - Basil Henry Liddell Hart 1972

The War in Outline, 1914-1918 - Sir Basil Henry Liddell Hart 1936
Engelsk bog af den kendte engelske strateg og krigshistoriker B. Liddell-Hart om Den første Verdenskrig. Bogen er inddelt i fem større afsnit efter de år, hvori krigen varede. Den har desuden udfoldelige kortskitser over Vestfronten, Polen og Europakort med indtegnede fronter.

The Sword and the Pen - Sir Basil Henry Liddell Hart 1976
IV. The Revolution: HORATIO NELSON: From The Trafalgar Memorandum; from The Diary NAPOLEON BONAPARTE: From Maxims; from Memoirs DUKE OF WELLINGTON: From Despatches PRIVATE WHEELER: Letter after Waterloo ARMAND DE CAULAINCOURT: From Memoirs ANTOINE DE JOMINI: From Summary of the Art of War KARL VON CLAUSEWITZ: From On War STENDHAL: From The Charterhouse of Parma

Scipio Africanus - B. H. Liddell Hart 2004-03-31

Scipio Africanus (236-183 B.C.) was one of the most exciting and dynamic leaders in history. As commander he never lost a battle. Yet it is his adversary, Hannibal, who has lived on in the public memory, due mostly to his daring march through the Alps with his elephants. At the Battle of the Ticinus, Hannibal's initial encounter with Roman arms, young Scipio first tasted warfare, rescuing his dangerously wounded, encircled father, who was also the Roman commander. By nineteen Scipio was the equivalent of a staff colonel and in 210 B.C. he was placed in supreme command. In three years he destroyed Carthaginian power in Spain and, after being made consul, took his forces to Africa, where he conquered Carthage's great ally, Syphax. Two years later he clashed with Hannibal himself, annihilating his army in the decisive Battle of Zama. For this triumph and his other exploits in the Punic Wars, Scipio was awarded the title Africanus. In his fascinating portrait of this extraordinary commander, B. H. Liddell Hart writes, "The age of generalship does not age, and it is because Scipio's battles are richer in stratagems and ruses -- many still feasible today -- than those of any other commander in history that they are an unfailing object lesson." Not only military enthusiasts and historians but all those interested in outstanding men will find this magnificent study absorbing and gripping.

A History of Military Thought - Azar Gat 2001

From ideas of Clausewitz to contemporary doctrines of containment & cold war, this is a history of modern military thought. It explores conceptions of war, strategy, & military theory, relating them to their cultural & historical contexts.

Foch - The Man Of Orleans - B.H. Liddell Hart 2013-04-16

This book provides a study of the military leadership of Marshall Foch, the Supreme Commander of Allied Forces in World War I. This has a fantastic introduction to the politics of coordination of war among the Allies and the personalities involved. Includes several good maps.

Liddell Hart - Brian Bond 1991

The Other Side of the Hill - Liddell Hart 1999-01-01

In the PAN GRAND STRATEGY series, this is an account of Germany's generals, including their own version of the military events of 1939-1945 and details of their rise and fall, presenting a picture of the Second World War as it was seen by the men who commanded the panzer divisions and the might of the Wehrmacht. Originally published in 1948.

The Defence of Britain - Basil Henry Liddell Hart 1980-01-01

Pandora's Box - Jörn Leonhard 2020-05-05

Winner of the Norman B. Tomlinson, Jr. Prize "The best large-scale synthesis in any language of what we currently know and understand about this multidimensional, cataclysmic conflict." —Richard J. Evans, Times Literary Supplement In this monumental history of the First World War, Germany's leading historian of the period offers a dramatic account of its origins, course, and consequences. Jörn Leonhard treats the clash of arms with a sure feel for grand strategy. He captures the slow attrition, the race for ever more destructive technologies, and the grim experiences of frontline soldiers. But the war was more than a military conflict and he also gives us the perspectives of leaders, intellectuals, artists, and ordinary men and women around the world as they grappled with the urgency of the moment and the rise of unprecedented political and social pressures. With an unrivaled combination of depth and global

reach, Pandora's Box reveals how profoundly the war shaped the world to come. "[An] epic and magnificent work—unquestionably, for me, the best single-volume history of the war I have ever read...It is the most formidable attempt to make the war to end all wars comprehensible as a whole." —Simon Heffer, The Spectator "[A] great book on the Great War...Leonhard succeeds in being comprehensive without falling prey to the temptation of being encyclopedic. He writes fluently and judiciously." —Adam Tooze, Die Zeit "Extremely readable, lucidly structured, focused, and dynamic...Leonhard's analysis is enlivened by a sharp eye for concrete situations and an ear for the voices that best convey the meaning of change for the people and societies undergoing it."

—Christopher Clark, author of The Sleepwalkers

A History of the Great War - C.R.M.F. Cruttwell 2007-12-01

This vivid, detailed history of World War I presents the general reader with an accurate and readable account of the campaigns and battles, along with brilliant portraits of the leaders and generals of all countries involved. Scrupulously fair, praising and blaming friend and enemy as circumstances demand, this has become established as the classic account of the first world-wide war.

Real War 1914-1918 - Captain B.H. Liddell Hart 1963-01-30

The classic short history of the First World War by a major historian and military tactician presents the results of extensive research on the causes, events, and effects of the conflict

A History of the Second World War - B. H. Liddell Hart 2015-11-19

First published in 1970, the year after his death, Liddell Hart's History of the Second World War is a highly acclaimed account by one of the greatest military writers of the twentieth century. Providing searing insights and drawing on an unparalleled knowledge of tactics and strategy, it is the culmination of a lifetime's analysis and study. Condensing six bloody years into one volume, Liddell Hart examines the moral and strategic choices made by those in power and the way these decisions affected ordinary soldiers on the ground. With meticulous attention to detail and epic scope, his work is a true classic and indispensable for those seeking to understand this most devastating of

conflicts.

The Donkeys - Alan Clark 2011-09-30

The landmark exposé of incompetent leadership on the Western Front - why the British troops were lions led by donkeys On 26 September 1915, twelve British battalions - a strength of almost 10,000 men - were ordered to attack German positions in France. In the three-and-a-half hours of the battle, they sustained 8,246 casualties. The Germans suffered no casualties at all. Why did the British Army fail so spectacularly? What can be said of the leadership of generals? And most importantly, could it have all been prevented? In *The Donkeys*, eminent military historian Alan Clark scrutinises the major battles of that fateful year and casts a steady and revealing light on those in High Command - French, Rawlinson, Watson and Haig among them - whose orders resulted in the virtual destruction of the old professional British Army. Clark paints a vivid and convincing picture of how brave soldiers, the lions, were essentially sent to their deaths by incompetent and indifferent officers - the donkeys. 'An eloquent and painful book... Clark leaves the impression that vanity and stupidity were the main ingredients of the massacres of 1915. He writes searingly and unforgettably' *Evening Standard*

Liddell Hart and the Weight of History - John J. Mearsheimer 2010-03

This troubling book offers a striking illustration of how history can be used and abused--how a gifted individual can create their own self-serving version of the past.

Sherman - B. H. Liddell Hart 2009-06-16

When Liddell Hart's *Sherman* was first published in 1929, it received encomiums such as these: "A masterly performance . . . one of the most thoroughly dignified, one of the most distinguished biographies of the year."--Henry Steele Commager, *New York Herald Tribune* "It is not often that one comes upon a biography that is so well done as this book. Nearly every page bears evidence of the fact that it is the product of painstaking and exhaustive research, mature thought, and an expert understanding of the subject in hand . . ."--*Saturday Review of Literature*

German Generals Talk - Basil H. Hart 1971-09-01

The German Generals who survived Hitler's Reich talk over World War II with Capt. Liddell Hart, noted British military strategist and writer. They speak as professional soldiers to a man they know and respect. For the first time, answers are revealed to many questions raised during the war. Was Hitler the genius of strategy he seemed to be at first? Why did his Generals never overthrow him? Why did Hitler allow the Dunkirk evacuation? Current interest, of course, focuses on the German Generals' opinion of the Red Army as a fighting force. What did the Russians look like from the German side? How did we look? And what are the advantages and disadvantages under which dictator-controlled armies fight? In vivid, non-technical language, Capt. Liddell Hart reports these interviews and evaluates the vital military lessons of World War II.

Military Strategy: A Very Short Introduction - Antulio J. Echevarria II 2017-01-09

Distilling the ideas of the greatest military theoreticians of history, including Sun Tzu, Niccolò Machiavelli, and Carl von Clausewitz, Antulio J. Echevarria II presents a fascinating account of the "art of the general." Drawing on historical examples, from Hannibal's war against Rome to Napoleon's victory at Austerlitz, from the Allies' campaign to overwhelm Hitler's fortress to the terror attacks of September 11, Echevarria vividly

describes the major types of military strategy and their advantages and disadvantages. Clear and engaging, this book shows that military strategy is essential for understanding major events of the past and becomes even more critical today, in a world increasingly threatened by weapons of mass destruction, terrorist attacks, and new dimensions of conflict such as cyberwar and space.

Fascist and Liberal Visions of War - Azar Gat 1998

Showing how theories of mechanized war in the air and on land developed throughout the industrial world in the first decades of the 20th century, this text examines how the pioneers of these theories were associated with fascism.

The Strategy of Indirect Approach - Liddell Hart 2018-10-15

This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

The Rise And Fall of British Naval Mastery - Paul Kennedy
2017-01-26

Paul Kennedy's classic naval history, now updated with a new introduction by the author This acclaimed book traces Britain's rise and fall as a sea power from the Tudors to the present day. Challenging the traditional view that the British are natural 'sons of the waves', he suggests instead that the country's fortunes as a significant maritime force have always been bound up with its economic growth. In doing so, he contributes significantly to the centuries-long debate between

'continental' and 'maritime' schools of strategy over Britain's policy in times of war. Setting British naval history within a framework of national, international, economic, political and strategic considerations, he offers a fresh approach to one of the central questions in British history. A new introduction extends his analysis into the twenty-first century and reflects on current American and Chinese ambitions for naval mastery. 'Excellent and stimulating' Correlli Barnett 'The first scholar to have set the sweep of British Naval history against the background of economic history' Michael Howard, Sunday Times 'By far the best study that has ever been done on the subject ... a sparkling and apt quotation on practically every page' Daniel A. Baugh, International History Review 'The best single-volume study of Britain and her naval past now available to us' Jon Sumida, Journal of Modern History
World War 1 in Outline - B. H. Liddell Hart 2012-03

A concise history of the war, divided into five parts representing each year of the war. Discusses the war on land, at sea and in the air while incorporating the political events of the time.

Alchemist of War - Alex Danchev 1998

Liddell Hart, no warrior, dwelt all his life on war. He obtained its waste, **History Of The Second World War** - B. H. Liddell Hart 1999-05-07
History of the Second World War, B. H. Liddell Hart's last work as well as his magnum opus, embodies the fruits of twenty years of research and a lifetime of thinking on war. It abounds with controversial judgments, including provocative assertions about the true causes behind France's defeat in 1940, Hitler's failed invasion of Russia, and Japan's stunning victory at Pearl Harbor; the effectiveness of the Allies' strategic bombing of Germany; the questionable necessity of detonating atom bombs over Hiroshima and Nagasaki; and much more. This monumental history is both a crowning achievement and a final summation by one of the greatest military thinkers of the twentieth century.

Rommel as Military Commander - Ronald Lewin 1990-12-31

As the Germans wreaked havoc in Europe in the early 1940s, the war in Northern Africa seemed relatively insignificant. Yet a series of surprising victories by the Afrika Korps forced Winston Churchill to refocus his

attention. In the desert, one of the war's most brilliant commanders was blooming - Commander Erwin Johannes Eugen Rommel. In this provocative study, Ronald Lewin, prizewinning author of *Slim: The Standardbearer and Ultra Goes to War* charts the course of Rommel's military career. The Desert Fox, was a tactical genius - his personal leadership and ability to improvise on the battlefield with minimal resources were exemplary. Yet lapses in Rommel's judgment, combined with Churchill's heightened defences and Hitler's neglect, led to a crushing defeat for the Afrika Korps at Alamein in 1942. As Rommel's success waned, so did his relations with Hitler. Rommel was an exceptional commander - not only for his skills, but for the integrity with which he carried himself. This integrity, admired even by his adversaries, proved fatal. Unafraid to voice his objections to Hitler's military decisions, Rommel was associated with the 1944 plot to kill the dictator. In the wake of the plot's failure, Rommel was forced to take his own life.

The Real War - B H Liddell Hart 2012-11

Sir Basil Henry Liddell Hart (1895-1970) was an English soldier, military historian, and leading inter-war theorist. 1930's *The Real War* was republished as *A History of the World War (1914-1918)*.

On Grand Strategy - John Lewis Gaddis 2018-04-03

A master class in strategic thinking, distilled from the legendary program the author has co-taught at Yale for decades. For almost two decades, Yale students have competed for admission each year to the "Studies in Grand Strategy" seminar taught by John Lewis Gaddis, Paul Kennedy, and Charles Hill. Its purpose has been to prepare future leaders for responsibilities they will face, through lessons drawn from history and the classics. Now Gaddis has distilled that teaching into a succinct, sharp and potentially transformational book, surveying statecraft from the ancient Greeks to Franklin D. Roosevelt and beyond. An unforgettable guide to the art of leadership, *On Grand Strategy* is, in every way, its own master class.

[History of the Second World War](#) - 1973

The Rommel Papers - Erwin Rommel 1953

Makers of Modern Strategy from Machiavelli to the Nuclear Age - Peter Paret 2010-10-01

The essays in this volume analyze war, its strategic characteristics and its political and social functions, over the past five centuries. The diversity of its themes and the broad perspectives applied to them make the book a work of general history as much as a history of the theory and practice of war from the Renaissance to the present. *Makers of Modern Strategy from Machiavelli to the Nuclear Age* takes the first part of its title from an earlier collection of essays, published by Princeton University Press in 1943, which became a classic of historical scholarship. Three essays are repinted from the earlier book; four others have been extensively revised. The rest--twenty-two essays--are new. The subjects addressed range from major theorists and political and military leaders to impersonal forces. Machiavelli, Clausewitz, and Marx and Engels are discussed, as are Napoleon, Churchill, and Mao. Other essays trace the interaction of theory and experience over generations--the evolution of American strategy, for instance, or the emergence of revolutionary war in the modern world. Still others analyze the strategy of particular conflicts--the First and Second World Wars--or the relationship between technology, policy, and war in the nuclear age. Whatever its theme, each essay places the specifics of military thought and action in their political, social, and economic environment. Together the contributors have produced a book that reinterprets and illuminates war, one of the most powerful forces in history and one that cannot be controlled in the future without an understanding of its past.

The First World War and British Military History - Brian Bond 1991

This is an innovative study of the development of historical writing about the most controversial aspects of the World War I, such as Haig's generalship, the role of T. E. Lawrence in the Arab Revolt, and the failure of the Dardanelles campaign.

A Guide to the Study and Use of Military History - John E. Jessup 1979

[Thoughts on War](#) - Sir Basil Henry Liddell Hart 1999

This text is a treatise on the nature, conduct and operations of war; from

minor tactics to grand strategy, from one of the foremost military thinkers of the twentieth century, Liddell Hart.

Great Captains Unveiled - B. H. Liddell Hart 1996-03-22

Great Captains Unveiled incisively examines the brilliant military careers and intriguing personalities of six masters of the battlefield: Jenghiz Khan (1167?-1227) and Sabutai (1172?-1245), who led their Mongol cavalry into the heart of medieval Europe and shook the fabric of its civilization; the French Marechal de Saxe (1696-1750), one of the greatest generals of his age, a military prophet of rare foresight, and author of *Reveries*, a classic on the art of war; Gustavus Adolphus (1594-1632), the Swedish king during the Thirty Years War and the

founder of the modern army, who emphasized officer education, national recruitment, and the combination of firepower and mobility; Wallenstein (1583-1634), champion of the Holy Roman Empire and Adolphus's formidable opponent, who proved to be a genius of maneuver and psychological warfare; and James Wolfe (1727-1759), whose flawless execution of one of the most daring amphibious operations in history virtually gave Canada to the British. Liddell Hart's penetrating, decisive studies of these great captains reveal not only their genius and impact, but offer relevant lessons that 20th-century military commanders have yet to fully reap.
