Zooland - Irus Braverman 2012-11-28

This book takes a unique stance on a controversial topic: zoos. Zoos have their ardent supporters and their vocal detractors. And while we all have opinions on what zoos do, few people consider how they do it. Irus Braverman draws on more than seventy interviews conducted with zoo managers and administrators, as well as animal activists, to offer a glimpse into the otherwise unknown complexities of zooland. *Zooland* begins and ends with the story of Timmy, the oldest male gorilla in North America, to illustrate the dramatic transformations of zoos since the 1970s. Over these decades, modern zoos have transformed themselves from places created largely for entertainment to globally connected institutions that emphasize care through conservation and education. Zoos naturalize their spaces, classify their animals, and produce spectacular experiences for their human visitors. Zoos name, register, track, and allocate their animals in global databases. Zoos both abide by and create laws and industry standards that govern their captive animals. Finally, zoos intensely govern the reproduction of captive animals, carefully calculating the life and death of these animals, deciding which of them will be sustained and which will expire. *Zooland* takes readers behind the exhibits into the world of zoo animals and their caretakers. And in so doing, it turns its gaze back on us to make surprising interconnections between our understandings of the human and the nonhuman.

[Beyond the Workplace Zoo](#) - Nigel Oseland 2021-09-28

This book begins by outlining the common design mistakes with the modern open plan office and the industry focus on cost that has resulted in the ill-fated Workplace Zoo. The requirements of office-based workers according to psychological theory and research are then explained. Dr Oseland references historical studies in psychophysics to describe how to design environmental conditions (acoustics, lighting, temperature, indoor air quality) that enhance performance by supporting basic physiological needs. More contemporary research in environmental psychology investigates how cognition affects our interpretation and response to physical stimuli depending on personality, context, attitude and other personal factors. This in turn informs individual requirements for the environmental conditions as well as group needs. Studies in

evolutionary psychology and biophilia are also referenced. The latter part of the book turns to workplace solutions and focuses on how to plan, design and manage offices to accommodate our innate human needs now and in the future. The importance of designing for inclusivity is also recognised, including accommodating cultural, gender and generational differences along with designing spaces for neurodiversity. Dr Oseland's proposed workplace solution the Landscaped Office is a revived and revised version of Bürolandschaft with a contemporary twist. The impact of workplace trends, such as agile working and hot-desking, is also explored and found to complement the workplace solution, resulting in the Agile Landscaped Office. This book is key reading for professionals, and post-graduate students, in business, interior design, architecture, surveying, facilities management, building services engineering, HR and organisational or environmental psychology.

We Bought a Zoo - Benjamin Mee 2011-04-20

The remarkable true story of a family who move into a rundown zoo—already a BBC documentary miniseries and excerpted in *The Guardian*. In the market for a house and an adventure, Benjamin Mee moved his family to an unlikely new home: a dilapidated zoo in the English countryside. Mee had a dream to refurbish the zoo and run it as a family business. His friends and colleagues thought he was crazy. But in 2006, Mee and his wife with their two children, his brother, and his 76-year-old mother moved into the Dartmoor Wildlife Park. Their extended family now included: Solomon, an African lion and scourge of the local golf course; Zak, the rickety Alpha wolf, a broadly benevolent dictator clinging to power; Ronnie, a Brazilian tapir, easily capable of killing a man, but hopelessly sappy; and Sovereign, a jaguar and would-be ninja, who has

devised a long term escape plan and implemented it. Nothing was easy, given the family's lack of experience as zookeepers, and what follows is a magical exploration of the mysteries of the animal kingdom, the power of family, and the triumph of hope over tragedy. *We Bought a Zoo* is a profoundly moving portrait of an unforgettable family living in the most extraordinary circumstances.

Good Night, Gorilla - Peggy Rathmann
1994-04-13

A must have classic for all baby bedtimes and gifting opportunities. *Good night, Gorilla*. . . *Good night, Elephant*. . . It's bedtime at the zoo, and all the animals are going to sleep. Or are they? Who's that short, furry guy with the keys in his hand and the mischievous grin? Sneak along behind the zookeeper's back and see who gets the last laugh in this riotous good-night romp. The new generous trim size of every toddler's favorite book is even easier to share. With a warm, funny author's note highlighting how much this book has meant to kids and families since it was first published and some clever new details hidden in the illustrations, *Good Night, Gorilla* is the perfect gift for new babies as well as fans young and old. Look for Peggy Rathmann's other lively favorites *10 Minutes Till Bedtime* and *The Day the Babies Crawled Away*.

The White Tattoo - William James Cobb 2002

The White Tattoo is a smart, always surprising collection of American stories. William J. Cobb knows and loves his character and places. His first collection of short stories, *The White Tattoo*, revels in the undeniable allure of the physical world even as it is juxtaposed with the twists and kinks of psychological and emotional pain. At one extreme is the tense, torturous psychology of "Motel Ice," whose narrative voice emerges from the mind of a mentally disturbed Jehovah's Witness gazing out on a world of temptation and redemption. Similarly hyperdramatic in its conclusion and its arc of betrayal and violent aftermath, "For All You Dorks, Blah Blah Blah" conjures up a sleepwalking, murderous father who is less culpable in the harm he causes but all the while most destructive. Stylistically, the stories crackle, snap, and zing. Several of them, including "The Wishes," "The Atmosphere of Vienna," and "Dark Matter," use an

idiosyncratic, Tilt-O-Whirl narrative marked by a swirling, shifting focus and point of view, trying to create a multifaceted, complex vision of the world by dipping in and out of the consciousness of various characters.

Beyond Words - Carl Safina 2015-07-14

In a world where we usually measure animals by human standards, prize-winning author and MacArthur Fellow Carl Safina takes us inside their lives and minds, witnessing their profound capacity for perception, thought and emotion, showing why the word "it" is often inappropriate as we discover who they really are. Weaving decades of observations of actual families of free-living creatures with new discoveries about brain functioning, Carl Safina's narrative breaches many commonly held boundaries between humans and other animals. In *Beyond Words*, readers travel the wilds of Africa to visit some of the last great elephant gatherings, then follow wolves of Yellowstone National Park sort out the aftermath of their personal tragedy, then plunge into the astonishingly peaceful society of killer whales living in waters of the Pacific Northwest. We spend quality time, too, with dogs and falcons and ravens; and consider how the human mind originated. In his wise and passionate new book, Safina delivers a graceful examination of how animals truly think and feel, which calls to question what really does—and what should—make us human.

But her hopes wither and die when her biggest competitor is found dead and she's accused of murder. Teaming up with her blunt-speaking elderly friend, and a dreamy cop, Quincy desperately digs for clues to prove she didn't do it. But her mother's gossip network and the return of her crazy ex threaten to blight her investigation. Can Quincy unearth the culprit, or will she be buried along with her business? The Final Arrangement is the first book in the

charming Flower Shop cozy mystery series. If you like quirky characters, bizarre cases, and a light sprinkling of romance, then you'll love Annie Adams' freshly picked tale. Deadly Arrangements Wedding bells are ringing and the groom has gone missing in small town Hillside. Florist Quincy McKay was all set for wedding season, until the groom from one wedding disappeared and the groom from another became the prime suspect. Hard for a florist to make a living on weddings without the grooms, and even harder for her to stay out of the investigation, when the suspected culprit is the fiancé of her truth-telling older friend and sidekick, K.C. All Quincy wants is success in business, a happy family and the perfect romance with Alex Cooper, the hottest cop in the state. Not necessarily in that order, of course. The trouble is, between Alex's job and everyone else's weddings, it's getting harder and harder for Quincy and Alex to find any time to themselves. Every time the flames of passion ignite between them, someone or something shows up to fizzle the fire, including her meddling mother, her formerly absent father and even Elma, the handsiest waitress in the West. Just when Quincy thinks nothing else could go wrong, a ghost from Alex's past comes back to haunt them both, which could keep them apart forever if someone doesn't kill Quincy first. She stumbles into the clues to solve the case of the missing groom and finds a corpse as well, with the real culprit right on her sensibly but stylishly clad heels, proving that planning a wedding can literally be murder. Deadly Arrangements is the second book in the charming Flower Shop cozy mystery series. If you like quirky characters, bizarre cases, and a little romance, too, then you'll love Annie Adams' funny, feisty mystery. A Christmas Arrangement It's Christmastime in Hillside, but holiday spirit is in short supply for busy flower shop owner Quincy McKay. She's in charge of the town festival and her shop's open house, but her Santa's a no-show and her flower cooler is on the fritz. To make matters worse, she's learned her ex-husband isn't as ex as she'd thought. Just when she thought things couldn't get any worse, her boyfriend, hot cop Alex Cooper announces his parents are coming to town. Alex is the perfect man in Quincy's book, unfortunately his mother thinks he's perfect too.

And no woman is perfect enough for her perfect son, especially not the weird flower shop girl who works too much, can't cook and who she catches kissing another man in the department store. And what's this she heard about Quincy being married? Eleanor Cooper must help her son dodge a bullet (and not the kind from his job) during the romantic holiday season to prevent him from being ensnared in a regrettable relationship. Quincy's dignity (of which lately she's in short supply), her reputation, and every business in town are riding upon the success of the city's Christmas celebration. If she can figure out a way to make it work despite failing equipment, helpers as flaky as the falling snow, and a troubling and inappropriate Secret Santa, she might win the respect of everyone in the town, but more importantly, Alex's parents. If Alex can survive his loving but meddling mother until Christmas, and keep Quincy safe from her crazy ex-husband, with a little help from the MLM (Mormon Ladies Mafia), and K.C. the she-Santa, he'll arrange for the perfect holiday for himself and the woman who has captured his heart Buy The Arrangements to weed out a small-town murderer today!

The Emperor's General - James Webb 2009-10-07

Captain Jay Marsh had never questioned where his ultimate loyalty lay. He had witnessed the bloody horror left behind by the retreating Japanese army during World War II's final days. And he had abandoned his beautiful Filipina fiancée to see his duty through. But not even Marsh could guess the terrible personal price he would have to pay for his loyalty. He would follow General Douglas MacArthur to Tokyo itself. There he would become the brilliant,

egocentric general's confidant, translator, surrogate son--and spy. Marsh would play a dangerous game of deliberate deceit and brutal injustice in the shadow world of postwar Japan's royal palaces and geisha houses, and recognize that the defeated emperor and his wily aides were exploiting MacArthur's ruthless ambition to become the American Caesar. The Emperor's General is a dramatic human story of the loss of innocence and the seduction of power, about the conflict between honor, duty, and love, all set against an extraordinary historical backdrop.

What should you do when your boyfriend wants to propose live on air? Should you a) confess up front that you're already married before the cameras are in your face and risk losing him, because you never meant to lie but you never mentioned it either. On the other hand, b) try to avoid being alone with him (ever again) so that he will not get the opportunity to ambush you with a surprise engagement ring. Or c) play along with it and accept his offer of marriage and that leaves option d) which stands for divorce, which is what you should have done ages ago seeing as it's been five long years since you've actually seen your husband in the flesh. Did they have to make a pact to hook up again five years down the line and get back together for good, if neither of them had found happiness with another person by then? And this is the problem that Faye Allen faces on the programme where she works, while the TV

presenter is busy trying to make her own mark on telly so that she can fulfil her ambitions and one day host her own show. Only a scandal like this could sink her career boat that was sailing along quite nicely, until this happened to scupper her dreams. Astronauts and Their Cats - Anne Hart 2002-04
Astronauts and Their Cats: A Mother and Daughter Astronaut Team, the Immortal Shape-Shifting Space Cats, Snifferu and Whiskers, keep Patches, the Kitten busy in the Intergalactic Cat Club. They make a rather different family household during the day. However, at night, the space station is cat-shadow dark, except for the human's cats that mingle with the shape-shifting immortal space cats that prowl the corridors and live among the rows of computers. They are wannabee free cats who travel onboard the space shuttles. Some, unknown to the space program, aren't even home-grown. "Which cat sprayed gang graffiti on the space shuttle?" A ground controller cat, an orange tabby, studied the photo. "But how did it get there?" He aimed a scowl over his computer at his boss. "Maybe it's a paste-on the astronauts put up to celebrate all those years here," the boss said in a dark-as-coffee voice. The cat's boss hurried to another computer. Patches, the Earth-born part orange tabby, part Siamese cat, formerly a library cat adopted by the ground controller's boss, sniffed with disdain and curled up on top of the main filing cabinet. A computer screen banner reflected bright red in each kitten's cornflower blue eyes. Rows of blinking computers lit up the room everywhere. The controller called in an

expert. Every expert in the room studied the graffiti this time through video monitors as they watched the space shuttle. The controller pressed a button on his phone. "I'll call security."

Elizaveta, an attractive Muscovite, experiences a series of odd events: she is followed; she receives anonymous calls, flowers, and gifts. The culprit is her former lover, Timofey. He now lives far from Moscow and has a flourishing business, but a serious threat emerges when the daughter of a local mafia boss wants to marry him. Timofey knows his life is at risk if he says no. He creates a cunning scheme to save himself by staging a sham marriage with Elizaveta playing a primary role. Masterfully manipulating her feelings, Timofey persuades her to come visit him in his small town, but things soon take a dramatic turn. A seemingly romantic journey becomes a struggle for survival. Timofey and Elizaveta confront real danger when they least expect it. Love and deception reveal their essence when the best of intentions come into conflict with each other. The protagonists try hard to achieve their goals, but, in the end, each of them finds something much different instead. Illusion, ultimately, proves stronger than reality. And coincidences are often not so random after all.
