American Pop - Snowden Wright 2019-02-05
AN NPR BEST BOOK OF THE YEAR "Mr. Wright's imagined history of the rise and fall of the sugary drink empire is so robust and recognizable that you might feel nostalgic for the taste of a soda you've never had." - Sam Sacks, The Wall Street Journal NAMED A MOST ANTICIPATED BOOK BY Parade • Cosmopolitan • Town & Country • AARP • InStyle • Garden & Gun • Vol. 1 Brooklyn The story of a family. The story of an empire. The story of a nation. Moving from Mississippi to Paris to New York and back again, a saga of family, ambition, passion, and tragedy that brings to life one unforgettable Southern dynasty—the Forsters, founders of the world's first major soft-drink company—against

the backdrop of more than a century of American cultural history. The child of immigrants, Houghton Forster has always wanted more—from his time as a young boy in Mississippi, working twelve-hour days at his father's drugstore; to the moment he first laid eyes on his future wife, Annabelle Teague, a true Southern belle of aristocratic lineage; to his invention of the delicious fizzy drink that would transform him from tiller boy into the founder of an empire, the Panola Cola Company, and entice a youthful, enterprising nation entering a hopeful new age. Now the heads of a preeminent American family spoken about in the same breath as the Hearsts and the Rockefellers, Houghton and Annabelle raise their four children with the expectation they'll one day become world leaders. The burden of greatness falls early on eldest son Montgomery, a handsome and successful politician who has never recovered from the horrors and heartbreak of the Great War. His younger siblings Ramsey and Lance, known as the "infernal twins," are rivals not only in wit and beauty, but in their utter carelessness with the lives and hearts of others. Their brother Harold, as gentle and caring as the twins can be cruel, is slowed by a mental disability—and later generations seem equally plagued by misfortune, forcing Houghton to seriously consider who should control the company after he's gone. An irresistible tour de force of original storytelling, American Pop blends fact and fiction, the mundane and the mythical, and utilizes techniques of historical reportage to capture how, in Nathaniel Hawthorne's words, "families are always rising and falling in America," and to explore the many ways in which nostalgia can manipulate cultural memory—and the stories we choose to tell about ourselves.

Biodeconstruction - Francesco Vitale 2018-02-20
Analyzes Derrida's 1975 seminar "La vie la mort" as a deconstruction of biology with relevance to his work more broadly. In *Biodeconstruction*, Francesco Vitale demonstrates the key role that the question of life plays in Jacques Derrida's work. In the seminar *La vie la mort* (1975), Derrida engages closely with the life sciences, especially biology and evolution theory. Connecting this line of thought to his analysis of cybernetics in *Of*

Grammatology, Vitale shows how Derrida develops a notion of biological life as itself a sort of text that is necessarily open onto further articulations and grafts. This sets the stage for the deconstruction of the traditional opposition between life and death, conceiving of death as an internal condition of the constitution of the living rather than being the opposite of life. It also provides the basis for the deconstruction of the rigidly deterministic concept of the genetic program, an insight that anticipates recent achievements of biological research in epigenetics and sexual reproduction. Finally, Vitale argues that this framework can enrich our understanding of Derrida's late work devoted to political issues, connecting his use of the autoimmunitarian lexicon to the theory of cellular suicide in biology. "This book is extremely interesting and engaging, and provides a very original and timely perspective on Derrida's work. Its greatest strength is bringing together Derrida's "deconstruction" in his analysis of the life sciences under the heading of "biodeconstruction." This term is simple but ingenious, and captures beautifully the material dimension of Derrida's work." " Nicole Anderson, author of *Derrida: Ethics Under Erasure*

MICHAEL PALIN 'The book I've always wanted: an accessible, eloquent guide to the world's greatest - and maybe most elusive - pieces of music. And written by the man I'd want to tell me about it. This is such a delight.' DERREN BROWN Bach's six Cello Suites are among the most cherished of all the works in the classical music literature. Survive Coronavirus - Kevin L. Michel
2020-03-28

Survive Coronavirus, is written by Kevin L. Michel, a Performance Psychology Consultant, based in New York City. Without governmental action, ultimately, up to 80% of some populations shall be infected with Coronavirus, which causes COVID-19. With effective governmental action, that percentage can be significantly reduced. The countries that shall do best, are the countries where the government was most prepared. Similarly, for those most at

risk, the individuals who shall do the best, shall include the ones who were most prepared. Now is your time to prepare. You should avoid the virus as best you can, but you must also prepare for the worst. What shall you do if you get COVID-19? What steps shall you take to improve your odds of survival? This book is your guide in case you are infected with the Coronavirus, or if you suspect that you have been infected. The book is valuable for those who want to be prepared well in advance of such an event. Read the book today, because with the fatigue of an infection, you may not have the energy to read later, when it becomes most necessary. Be prepared now, for the worst. Survive Coronavirus, begins with standard public guidelines gathered from the top governmental agencies, such as the NIH, CDC, and NHS, and then progresses to guidelines from the author on what you should do to give yourself the best chance of survival if/when infected by the Coronavirus. An equation of survival is provided in the third chapter, breaking down the fundamental behaviors and factors that may determine whether you live or die. This equation gives the reader a sense of control, and provides actionable steps to win the battle before you. From the author: I went out for a run today, which was my one-a-day form of exercise during the Stay-At-Home order currently in NYC. I ensured that I maintained social distancing, weaving around the handful of other runners and pedestrians, ensuring that I never got too close. I live in Astoria, Queens, and I made a left on 30th Avenue, past the major hospital - the Mount Sinai Medical Center. Then I saw it. The giant, white, refrigerated truck that is to be used to store the bodies of the dead. I had seen it mentioned on CNN earlier, but it is so eerie to see it in person. I write this book with the best of intentions, to be helpful to you, and to be helpful to me. I have done my best to locate valid and helpful research, and to logically consider the challenge ahead, and present these insights in a relatively brief and readable format - but I am not a medical professional. There are real risks to life here - this pandemic is real. Having seen the truck, I know that if I fail, that shall be where it ends. I want you to be prepared, and I want you to have a strategy if you do get infected. This book is for us both.

Introduction to the Analysis of the Literary Text - Cesare Segre 1988

The Catholic School - Edoardo Albinati
2019-08-13

A semiautobiographical coming-of-age story, framed by the harrowing 1975 Circeo massacre Edoardo Albinati's *The Catholic School*, the winner of Italy's most prestigious award, The Strega Prize, is a powerful investigation of the heart and soul of contemporary Italy. Three well-off young men—former students at Rome's prestigious all-boys Catholic high school San Leone Magno—brutally tortured, raped, and murdered two young women in 1975. The event, which came to be known as the Circeo massacre,

shocked and captivated the country, exposing the violence and dark underbelly of the upper middle class at a moment when the traditional structures of family and religion were seen as under threat. It is this environment, the halls of San Leone Magno in the late 1960s and the 1970s, that Edoardo Albinati takes as his subject. His experience at the school, reflections on his adolescence, and thoughts on the forces that produced contemporary Italy are painstakingly and thoughtfully rendered, producing a remarkable blend of memoir, coming-of-age novel, and true-crime story. Along with indelible portraits of his teachers and fellow classmates—the charming Arbus, the literature teacher Cosmos, and his only Fascist friend, Max—Albinati also gives us his nuanced reflections on the legacy of abuse, the Italian bourgeoisie, and the relationship between sex, violence, and masculinity.

Angel Face - Barbie Latza Nadeau 2010-09

Despite all the airtime devoted to Amanda Knox, it's still hard to reconcile the fresh-faced honor student from Seattle with the sexually rapacious killer convicted of the November 2007 murder of her British roommate. Few Americans have heard all of the powerful evidence that convinced a jury that Knox was one of three people to sexually assault Meredith Kercher, brutalize her body, and cut her throat. In *Angel Face*, Rome-based *Daily Beast* senior writer Barbie Latza Nadeau - who cultivated personal relationships with the key figures in both the prosecution and the defense - describes how the Knox family's heavy-handed efforts to control media coverage distorted the facts, inflamed an American audience, and painted an offensive, inaccurate picture of Italy's justice system. An eye-opener for any parent considering sending a child away to study, *Angel Face* reveals what really went on in this incomprehensible crime.
