Mental Health (Care and Treatment) (Scotland) Act 2003 (asp 13) - Scotland 2003

Children's Rights and the Developing Law - Jane Fortin 2003-04

This text considers the developing law in England and Wales as it applies to the burgeoning and confusing subject of the rights of children. It examines the extent to which the emerging legal principles can be harnessed to fulfil those rights.

Supporting Children and Young People's Learning - Shelley Gray 2005-12-20

A parent's guide to additional support and learning, presenting the key features of the 'Education (Additional Support for Learning) (Scotland) Act 2004'. It gives an overview of the planning processes involved with a child with additional support needs, how the different plans relate, and focuses on the Co-ordinated Support Plan (CSP).

Making Good Decisions - Michael Preston-Shoot 2019-05-14

What does the law require of social workers when deciding how to intervene to protect children and adults at risk? What social work standards should guide decisions about whether, when and how to invoke statutory powers and duties in practice? Making Good Decisions provides an accessible and practical guide to the legal rules and principles that should guide everyday social work practice. It sets out the key elements of administrative law, equality and human rights legislation which shape how social workers practise and illustrates how knowledge and use of legal principles can support core social work goals, including empowerment, equality and social justice. An invaluable reference point for all students and practitioners, this book will support and empower social workers to feel more confident in making and challenging decisions, more credible when presenting assessments and plans, and more creative when working with service users and carers. The text is supported by a range of innovative features and boxed information to aid learning and stimulate reflection: - Key Case Analysis boxes summarise the details of particular legal cases and outline the implications for social work practice. - Practice Focus boxes apply legal principles and processes to practice through the use of social work scenarios. - On-The-Spot Questions reinforce understanding and encourage critical reflection.

Social Work with People with Learning Difficulties - Hunter, Susan 2015-07-29

Recent years have seen a revolution in the field of working with people who have learning difficulties—both professional understanding and user expectations about services and the ways they are provided have been completely transformed. This book offers up-to-date case studies, examples from practice, and points for further reflection, all aimed at people who are learning to work with those who have learning difficulties. It offers a close examination of the role of services and social workers, emphasizing person-centered, one-on-one, and community-focused approaches.

Social Work in a Changing Scotland - Vivienne E. Cree 2018-02-12

Scotland has changed, politically and culturally, in recent years, with persistent demands for independence culminating in a referendum in 2014. On this fluid political landscape, social welfare can be co-opted towards a wider 'nation-building' project. As a result, social work in Scotland is increasingly divergent from the rest of the UK. This book offers a comprehensive, critical and timely account of the profession in these changing times, charting its historical development, current practice and future directions. Bringing together a range of academic and practice experts, it considers social work as it is currently but also as it might be. Divided into three parts, the first part sets a context, identifying historical, philosophical, policy and legal influences on current practice. The second part picks up on current themes in policy and practice, addressing key issues of professional identity in an increasingly integrated policy context. The final part contains chapters

on current domains of practice, identifying key areas of legislation, policy and practice. *Social Work in a Changing Scotland* is essential reading for social work students, offering an accessible yet critical overview of the profession. It will also inform current practitioners to understand better the changing contexts within which they practise, while prompting further academic debate about Scottish social work.

The Child Protection Practice Manual - Gayle Hann 2016-01-14

Around 85 children die each year in the UK due to abuse or neglect. A number of these deaths are later deemed preventable because the child involved was known to either social services or to a health professional. Cases such as those of Baby P and Victoria Climbié highlighted the failings of these organisations, ones set up to safeguard children. It is the responsibility of every health professional worldwide to identify and respond to child abuse and yet that very responsibility is both emotionally and strategically challenging. *The Child Protection Practice Manual: Training practitioners how to safeguard children* equips professionals with the ability to recognise a child at risk and the knowledge of how to work with a child already suffering abuse. Practical advice is offered on how to navigate the multi-disciplinary processes. Fictional case studies and exercises immerse the reader in scenarios. Building on this, the authors lead readers through learning points, recommendations, and legislation. With new definitions in child protection ranging from child sexual exploitation, gang violence, radicalisation and internet bullying through to female genital mutilation, witchcraft and spirit possession, honour based violence and forced marriage, this book will be a valuable resource for qualified paediatricians and those in training, as well as professionals who have contact with children such as GPs, nurses, health visitors, social workers, midwives, teachers, lawyers, and community workers.

Young People's Transitions from Care to Adulthood - Mike Stein 2008-04-15

The transition from care into adulthood is a difficult step for any young person, but young people leaving care have a high risk of social exclusion, both in terms of material disadvantage and marginalisation. In *Young People's Transitions from Care to Adulthood* leading academics gather together the latest international research relating to the transition of young people leaving care, outlining and comparing the range of legal and policy frameworks, welfare regimes and innovative practice across 16 countries. The book also highlights the variations that exist between different groups leaving care. Featuring key messages for policy and practice, this book will give academics, practitioners and policymakers valuable insights into how to encourage resilience and improve outcomes for care leavers.

Anti-Oppressive Practice - Dalrymple, Jane 2006-12-01

The authors draw on their own experiences and those of practitioners, service users and carers to understand issues of power and oppression, demonstrating how the law can be used to inform the development of critical anti-oppressive practice. The book therefore points the way to practice that is both empowering to service users and ultimately liberating for practitioners.

Welfare Reform Act 2007 - Great Britain 2007-05-10

This Act makes provision for the Employment and Support Allowance, which will replace incapacity benefit and income support on the grounds of incapacity. The benefit will have a new structure that incorporates both a contributory allowance and an income-related allowance, with the introduction of conditionality to some claimants receiving benefit. It also contains provisions relating to housing benefit, including measures to allow the reduction of benefit if a person is evicted for anti-social behaviour; and social security administration, including in relation to the sharing of information, overpayment recovery and benefit fraud.

Safeguarding in Social Work Practice - Charlotte Chisnell 2019-03-11

Safeguarding is a serious and complex area of social work, and demonstrating an understanding of important theory, law, policy and skills for practice is essential and it is vital that this understanding extends across the lifespan. This book brings together common safeguarding themes and knowledge across social work with children, young people and adults to help do just that.

The Reality of Research with Children and Young People - Vicky Lewis 2012-06-21

The Reality of Research with Children and Young People illustrates the process of carrying out research through thirteen 'research stories'. Each story includes a piece of published research, accompanied by a commentary from the author of the research explaining: · the origins of the research · how research questions were formed · factors influencing the choice of methodology and data collection techniques · problems that

arose and how these were dealt with · personal reflections on the project. The research examples included in this volume have been carefully selected to demonstrate the reality of researching with children from pre-school age to late adolescence. They reflect the different traditions and variety of methods of collecting data, including interview, evaluation, ethnography, experiment, survey, case study, questionnaire, longitudinal, and standardised assessment. *The Reality of Research with Children and Young People* provides valuable insights into the process of research for students and professionals in a range of fields including education, health, welfare, childhood and youth Studies, psychology and sociology. The book was developed to accompany The Open University Course, *Research with Children and Young People* (EK310).

Leaving Care - Jo Dixon 2005

How can social workers and agencies best support young people as they make the transition from care to independent living? This authoritative study investigates the successes and failures of care services for young people, identifying factors that hinder effective transition from care and the types of support that help to promote positive life choices. Analysing current policy and drawing on the findings of past research, the authors explore the experiences of young people leaving the care of three very different Scottish local authorities to demonstrate how support works in practice. They address the impact of throughcare and aftercare services, and argue for a more gradual transition towards independence, combined with more consistent and ongoing support after young people leave care. This book draws on the Scottish context to offer valuable lessons that are important reading for all students and practitioners in the fields of social care and social policy, and other professionals interested in the development of childcare practice.

Law Making and the Scottish Parliament - Elaine E. Sutherland 2011-02-15

Law Making and The Scottish Parliament: The Early Years offers the first wide-ranging critical analysis of legislative developments in those areas of law and policy devolved to the Scottish Parliament under the devolution settlement. It begins with a brief account of the devolution settlement and summarises the themes emerging from the subsequent chapters. Thereafter, sixteen themed chapters, each dedicated to a discrete area of the law and written by an acknowledged expert in the field, provide critical evaluation of the Scottish Parliament's contribution, highlighting what it has achieved, what it has failed to do and what might be done in the future. In a single volume, *Law Making and The Scottish Parliament: The Early Years* provides a scholarly evaluation of a number of legislative achievements of Scotland's devolved parliament in its first decade. It will appeal to legal and other scholars and students, lawyers and anyone with an interest in Scottish politics, policy-making and law. *Social Policy for Social Work, Social Care and the Caring Professions* - Steve J Hothersall 2020-11-29

This revised second edition analyses social policy in Scotland since devolution in 1999 and reflects the nascent and distinctively Scottish policy agenda. Along with updated chapters, there are two new inclusions: a chapter analysing post-devolution Scotland and a chapter on the likely impacts of Brexit on and within Scotland. Providing diagrams, tables and a range of activities, the book maintains an innovative and pedagogic emphasis to introduce students to a wealth of materials, ideas and practical responses to the increasingly complex and diverse situations faced by social workers and other professionals. Part 1 of the book looks at what social policy is, how and why it is made and highlights the importance of the relationship between social policy and the law. Part 2 refers to specific themes of social exclusion, poverty and (more visible for this revised edition) austerity, considering their complex and multidimensional forms and discussing the range of policies currently extant that aim to combat such disadvantage. Part 3 provides a comprehensive overview of policy for practice, considering concepts of health inequality, mental health, older people, disability, children and families, education, substance use, criminal justice, asylum and immigration and homelessness. This book will be of interest to undergraduate and postgraduate students as well as post-qualified professionals seeking to understand the complexities of the social policy landscape in Scotland, and its influence on social work and related forms of professional practice.

Immigration Law Handbook 2013 - Margaret Phelan 2013-01-24

Providing an invaluable reference for immigration practitioners, this book builds on the proven success of previous editions to offer the most up-to-date coverage of recent immigration legislation, selected and annotated by experts with a wealth of practical experience.

Criminal Procedure (Scotland) Act 1995 - 2018

History of Scottish Child Protection Law - Norrie Kenneth McK. Norrie
2020-07-06

The first comprehensive account of how the law and practice of child protection in Scotland has developed from its earliest origins to the present day, within the context of a changing world. Key Features Places the Scottish juvenile court in worldwide perspective and explores why the juvenile court ideals remain central to the contemporary children's hearing system in Scotland, dealing with both child offenders and neglected and abused children. Gives detailed analysis of the legislation and explores the parliamentary debates surrounding Acts including the Children Act 1908, the Adoption of Children (Scotland) Act 1930, the Children and Young Persons (Scotland) Acts 1932 and 1937, the Children Act 1948, the Social Work (Scotland) Act 1968, the Children (Scotland) Act 1995 and the Children and Young People (Scotland) Act 2014. Preserves in accessible form many long-forgotten legal and social aims, cases and secondary legislation. Kenneth Norrie traces the assumptions that underlay child protection law at particular periods of time and identifies the pressures for change - giving a clearer understanding of how and why the contemporary law is designed and operates as it does. Particular issues are traced in legislative detail, including court processes, the changing thresholds for state intervention, the increasing regulation of children's homes and foster care, the developing rules on corporal punishment and the earlier practice of compulsory emigration to the colonies of children removed from their parents. The transformation of adoption is also covered in comprehensive detail. In drawing out key themes and common threads, Norrie sets contemporary developments against their historical context and offers a fuller understanding of child protection law in Scotland.

The Child Protection Handbook - Kate Wilson 2007-04-26

This title is directed primarily towards health care professionals outside of the United States. The new edition of this popular handbook gives an authoritative, informative and accessible account of key areas of child protection practice. Covering research, policy and practice it is relevant to all professionals working in child care. No other book on child protection offers such comprehensive coverage of policy and practice. It provides research findings in all areas of child abuse, latest policies and indications of good practice, plus specialist chapters for different professionals. Chapters have been contributed by known experts in the field, both distinguished academics and practitioners. By combining the latest factual information with sophisticated analysis, it is the ideal course text for child protection programmes as well as meeting the needs of more experienced practitioners, academics and trainers. Practical. Examines the issues grounded in reality, and therefore gives the reader confidence in practice, coupled with an understanding of the responsibilities of colleagues in other professions. Comprehensive. Covers a broad review of what constitutes child abuse and characteristics of the abused and the abusers; medical, social and legal management of the process of protection; the actions involved in intervention. and training and new directions for research and practice. Authoritative. Contributors are senior professionals known nationally and internationally for their specific expertise in this area. Research based. All books should be, but amongst the professionals most closely involved in child protection, the heavy workload often means there is little time to catch up on and assimilate up-to-date research fully. This book offers a through guide to what research and policy initiatives can give to the practice of the reader. new chapters addressing issues of culture and parenting.. each chapter contains key messages for practitioners. key websites have been listed. a website on Evolve with supplementary material.

Social Policy for Social Work, Social Care and the Caring Professions - Janine Bolger 2016-04-01

Since devolution in 1999, social policy within Scotland has burgeoned. The Scottish Parliament has a range of powers in relation to key policy areas including social work, education, health, child care, child protection, law and home affairs, and housing. These powers and the existence of a distinct legal tradition in Scotland means that social work practice has developed a distinctive style, attuned to the particular needs of Scotland. Scottish distinctiveness however, has rarely been properly represented in textbooks on either social policy or social work. This innovative text offers comprehensive coverage of the discipline of social policy and its central relevance to social work, social care and related practice in Scotland. Designed to complement teaching and study associated with the new Honours degree in Social Work (Scottish Executive 2003), it fills a notable gap in the literature on this subject and will be essential reading for students, professionals and academics within

a variety of health and social care occupations.

Risk and Risk Taking in Health and Social Welfare - Mike Titterton
2005-01-01

In this practical book, Mike Titterton offers an innovative model of risk work in health and social care. He argues that a thoughtful risk-taking approach can lead to empowerment and greater independence for vulnerable individuals. He also discusses contemporary definitions of risk, and identifies the essential skills needed by professionals.

Safeguarding Across the Life Span - June Keeling 2020-10-12

Considering safeguarding across the life span and placing it within a multiagency context, this book gives students a grounding to the key issues in safeguarding today, highlighting the key skills and knowledge necessary for effective practice along the way. It includes reference to the latest legislation, skills for practice, a breadth of contexts and service-user groups, drawing on a range of case studies, activities, reflective questions and recommending reading from across health and social care. Locating age specific concerns in context and divided into sections which cover every stage of life, it addresses questions of culture, gender and problems frequently encountered in practice and what these mean for safeguarding and law.

Law for Social Workers - Caroline Ball 2017-07-05

The fourth edition of this popular text has been expanded to accommodate social workers' continuing need for a thorough grounding in the statutory framework of local authority practice and the wider legal context of social work in the statutory and voluntary sectors. The separate chapter on social work law in Scotland addresses continuing developments in relation to devolved government and new legislation. Since 1996, the pace of change has been remorseless. Part IV of the Family Law Act has been implemented; youth justice in England and Wales has been substantially reformed; the Human Rights Act 1998 impacts on areas of social work practice; and social security law has been significantly amended. The Adoption and Children Act 2002 will both radically reform the law relating to the adoption of children and significantly amend the Children Act 1989. All these important changes, central to social work practice, are addressed in detail.

Community Care Practice and the Law - Michael Mandelstam 2005

This third edition of *Community Care Practice and the Law* has been substantially rewritten and restructured to reflect the rapid legal and policy changes affecting the community care field. It provides comprehensive and jargon-free explanations of both community care legislation and other areas of the law directly relevant to practitioners. Topics covered include: • assessment and eligibility criteria ('fair access to care') and waiting times • placing people in care homes • non-residential, domiciliary and home care services • carers' assessments and services • home adaptations and disabled facilities grants * direct payments * continuing health care and health services generally, including community equipment services * joint working between local authorities and the NHS * single assessment process, intermediate care * decision making capacity and incapacity * information sharing * adult protection * human rights and disability discrimination * health and safety at work legislation including manual handling people subject to immigration control, including asylum seekers care standards. Numerous examples of legal cases and ombudsman investigations clearly illustrate the practical impact of legislation on community care. A separate chapter provides an at-a-glance view of the whole range of legislation underpinning the everyday work of practitioners. The author also identifies the underlying mechanisms, tensions and problems affecting community care law and practice. Primarily covering England in detail, much of the legal case law covered and the legal principles involved are of general relevance across the United Kingdom, and where material is not directly applicable to Wales, Scotland and Northern Ireland, short summaries offer general pointers for the position in these three countries. This book is an essential guide for practitioners and managers in both the statutory and voluntary sectors, policy makers in local and central government, advocates, lawyers and social work students.

Parental Guidance, State Responsibility and Evolving Capacities - Claire Fenton-Glynn 2021-10-05

In this book leading international scholars provide fascinating insights into the vital but enigmatic role of Article 5 of the Convention on the Rights of the Child.

Critical Studies in Ancient Law, Comparative Law and Legal History - John Cairns 2001-01-19

This important collection of essays is at the cutting edge of contemporary research on Roman law, comparative law, and legal history. The international and distinguished group of authors address some of the

most lively contemporary problems in their respective fields, and provide new perspectives and insights in a wide range of areas. With a firm focus on texts and contexts, the papers come together to provide a coherent volume dedicated to one of the greatest contemporary Romanists, legal historians and comparative lawyers. The book covers Professor Watson's main fields of interest in a clear and accessible form, while also making available the scholarship of some individuals who do not normally publish in English. This fully-indexed volume will be of interest to all scholars and students of Roman law, ancient Jewish and Chinese law, legal history and comparative law, and will be useful for teaching and research in these fields.

Children (Scotland) Act 1995 - Kenneth McKenzie Norrie 2004

The Children (Scotland) Act 1995, 2nd Edition provides a full text copy of this important Act, with readily accessible commentary. The authoritative annotations highlight important changes to the pre-1995 law, identify the derivations of the major provisions, give interpretation of the various provisions and supply practical guidance in the layout of the Act, with its many cross-references. This new edition has been revised and updated to take account of the implementation of the Act in practice, statutory and judicial developments, and academic comment on the operation of the Act. It examines the impact of all amending legislation including the Regulation of Care (Scotland) Act 2001, important case law such as *White v White* and looks at how the Children (Scotland) Act 1995 has established itself in practice.

Inspiring a Medico-Legal Revolution - Pamela R. Ferguson 2016-03-09

This book marks the retirement of Professor Sheila McLean, whose contribution to the discipline of medical law has been truly ground breaking. As one of the pioneers of the discipline, Sheila McLean inspired a revolution in the ways in which lawyers, doctors, courts and patients perceive the relationship between medicine and the law. The first International Bar Association Professor of Law and Ethics in Medicine, she has worked tirelessly to champion the importance of law's role in regulating medicine and protecting patients' rights. The span in content of this book reflects the range of contributions that Professor McLean has herself made. Her work gave direction and shape to a new field of study at a time when few questioned the authority of medicine or thought much about the plight of the patient. This collection brings together 21 leading scholars in healthcare law and ethics to honour the depth and significance of her contribution. Including authors from the US, Australia, Canada and New Zealand, the contributions cover areas as diverse as start and end of life, reproductive rights and termination of pregnancy, autonomy of patients, the protection of vulnerable patient groups, and the challenges posed by new technologies.

Understanding the Roots of Voluntary Action - Colin Rochester 2011

The current debate on the growing role of the voluntary and community or -third- sector in delivering public and social policy is impoverished by its lack of understanding of the historical events which have shaped the sector and its relationship with the state. This widely anticipated book draws on a range of empirical studies of aspects of the history of voluntary action to illuminate and inform this debate. Chapter contributions range across two centuries and a variety of fields of activity, geographical areas and organisational forms. Four key themes are addressed: The 'moving frontier' between the state and voluntary action; the distribution of roles and functions between them; and the nature of their inter-relationship. The 'springs' of voluntary action - what makes people get involved in voluntary organisations or support them financially. Organisational challenges for voluntary agencies, including growth, cleaving to their missions and values, and survival. Issues of continuity and change: how and to what extent has the nature of voluntary action and its role in society remained essentially the same despite the changing context? This book is essential reading for all practitioners involved in charities and voluntary and non-profit organisations, for those who work at the interface between government and the third sector and for those who are involved in making and implementing public and social policy.

The Future of Child and Family Law - Elaine Sutherland 2012-08-02

A critical and comparative analysis of the past and future imperatives shaping child and family law around the world.

International Handbook of Juvenile Justice - Josine Junger-Tas 2010-06-28

This comprehensive reference work presents inside information on the Juvenile Justice-systems in 19 different countries, both in old and new EU-member states and in the United States and Canada. The book is the result of research conducted by a group of outstanding researchers, who are concerned about trends in Juvenile Justice in the last two decades, which blur the border between criminal and juvenile justice.

Family Law - John Dewar 2003-04-14

This volume contains an edited selection of the papers by contributors from around the world delivered at the 10th World Conference of the International Society of Family Law. The papers cover three broad themes: innovations in processes for resolving and determining family disputes; changing patterns in family and professional practices; and the political and other pressures operating on family law systems and law reform processes.

Scottish Parliament - Mark Lazarowicz 2018-01-23

Scottish Family Law - Kenneth McK. Norrie 2016-09-28

A clear and concise study and revision guide for students of family law in Scotland. Covering all the major legislation, Scottish Family Law is designed for new students of the subject. It gives you a framework for understanding how family law operates and will help you to prepare for your exams. Each chapter includes lists of essential facts and cases to illustrate how the rules described are applied in practice. Key Features Takes full account of the substantial statutory developments in the field since the Family Law (Scotland) Act 2006. Covers two major recent Acts: the Children's Hearings (Scotland) Act 2011 and the Marriage and Civil Partnership (Scotland) Act 2014. Includes important new legislation such as the Adoption and Children (Scotland) Act 2007 and the Human Fertilisation and Embryology Act 2008.

Youth Policy and Social Inclusion - Monica Barry 2005

Many young people lack status, rights and power because they fall between the two stools of protection and dependence as children and autonomy and self-determination as adults. They are also often considered by their elders to be rebellious and troublesome, and labelled with phrases such as 'underclass youth' and 'dangerous youth'. This book critically examines these discriminatory attitudes and looks at the 'problem' of adults rather than the 'problem' of young people. Rather than focusing on the problems that young people present to others in society, this book emphasises the problems that young people face from others. *Youth Policy and Social Inclusion* will appeal to a wide audience, including students, practitioners, policy makers and academics in the fields of social policy, social work, sociology, youth and community work, criminology, economics, education, housing and politics.

Dictionary of Youth Justice - Barry Goldson 2013-06-17

This Dictionary explicitly addresses the historical, legal, theoretical, organisational, policy, practice, research and evidential contexts within which 'modern' youth justice in the UK and beyond is located. The entries cover a spectrum of theoretical orientations and conceptual perspectives and engage explicitly with the key statutory provisions and policy and practice imperatives within each of the three UK jurisdictions. This book is a key resource for those teaching and studying undergraduate and post-graduate courses in criminology, criminal justice, sociology, social policy, law, socio-legal studies, community justice, social work, youth and community work and police studies, together with policy-makers, managers and practitioners working within the youth justice sphere (including staff training officers, youth justice officers, social workers, probation officers, police officers, teachers and education workers, health professionals, youth workers, drug and alcohol workers and juvenile secure estate staff). The Dictionary of Youth Justice: is designed to meet the needs of researchers, policy-makers, managers, practitioners and students; begins with an introductory chapter that maps the key shifts in contemporary national and international youth justice systems; contains over 300 alphabetically arranged entries - written by almost 100 experts in the respective fields - that explicitly address the core components of youth justice in England and Wales, Northern Ireland and Scotland; Provides specifically tailored recommended key texts and sources in respect of each entry; is closely cross-referenced and contains a detailed index to assist readers to make connections between and across entries; includes a detailed 'Directory of Agencies' that relate to youth justice in each of the three UK jurisdictions; is compiled and edited by one of the UK's leading authorities in youth justice.
