

Tithe War 1918 1939 The Countryside In Revolt

As recognized, adventure as competently as experience more or less lesson, amusement, as with ease as covenant can be gotten by just checking out a ebook **Tithe War 1918 1939 The Countryside In Revolt** furthermore it is not directly done, you could believe even more all but this life, roughly the world.

We come up with the money for you this proper as capably as simple showing off to acquire those all. We give Tithe War 1918 1939 The Countryside In Revolt and numerous ebook collections from fictions to scientific research in any way. in the midst of them is this Tithe War 1918 1939 The Countryside In Revolt that can be your partner.

Calvinism on the Frontier, 1600-1660 - Graeme Murdock 2000

'This is a very important volume presenting an exciting look at one of the least known branches of the Calvinist International. Scholars interested in social control, religious reform, toleration, and intellectual thought will find much here to interest them... It is certainly a most welcome addition to our

understanding of Calvinism and early modern Hungarian lands' -English Historical Review'A very interesting and extremely useful historical account' -English Historical Review'This study is significantly more important than just another case study of Calvinism. The success of Calvinism in the Hungarian lands remains, until now, a story largely unknown to the wider historical community.

Again, that alone makes this work interesting. The peculiarities of the socio-political situation in Hungary and Transylvania, however, makes this volume truly fascinating' -English Historical Review

The reformation was not a western European event, but historians have neglected the study of Protestantism in central and eastern Europe. This book aims to rectify this situation. It examines one of Europe's largest Protestant communities in Hungary and Transylvania. It highlights the place of the Hungarian Reformed church in the international Calvinist world, and reveals the impact of Calvinism on Hungarian politics and society.

Riotous Assemblies - William Sheehan 2011

Why riot? Against whom? For what? Riotous Assemblies is an account of Irish riots, urban and rural, across Ireland from the sixteenth to the twenty-first century.

The Church of England and the Durham Coalfield,

1810-1926 - Robert Lee 2007

A detailed survey of the Anglican mission to the coalfields in an era where rapid industrialisation crucially affected the old ecclesiastical structures. In 1860 the Diocese of Durham launched a new mission to bring Christianity - and specifically Anglicanism - to the teeming population of the Durham coalfield. Over the preceding fifty years the Church of England had become increasingly marginalised as the coalfield population soared. Parish churches that had been built to serve a scattered, rural medieval population were no longer sufficiently close - or relevant - to the new industrial townships that were being constructed around the coalmines. The post-1860 mission was a belated attempt to reach out to the new coalfield population, and to rescue them from the forces of

Methodism, labour militancy and irreligion. It was posited on the need to build new churches, to delineate new parishes and to recruit a new type of clergyman: working-class and down-to-earth in origin and outlook, and somebody who could make an empathetic connection with his new parishioners. This book is a detailed exploration of the way in which the Church of England in Durham handled its mission. It follows the Church's relationship with the coalfield, which ranged from an early-nineteenth-century aloofness to an early-twentieth-century identification which many church leaders considered had gone too far, and in so doing reveals how the Durham experience relates to national attempts to maintain Anglicanism's relevance and presence in an increasingly secular and sceptical society. Dr ROBERT LEE lectures in History at the University of Teesside, Middlesbrough.

Distinguished historian Martin

Pugh offers a colourful and controversial revisionist history of Britain in the 1920s-30s.

Blackpool's Seaside Heritage - Allan Brodie
2015-04-01

Blackpool is Britain's favourite seaside resort. Each year millions of visitors come to walk on its three piers, ride donkeys, enjoy shows at the Winter Gardens, scream on the thrilling rides at the Pleasure Beach and ride the lift to the top of the Tower. Generations of holidaymakers have stayed in its hotels, lodging houses and bed and breakfasts and all have succumbed to its delectable fish and chips. Two centuries of tourism has left behind a rich heritage, but Blackpool has also inherited a legacy of social and economic problems, as well as the need for comprehensive new sea defences to protect the heart of the town. In recent years this has led to the transformation of its seafront and to regeneration programmes to try to improve the town, for its visitors and residents. This book celebrates Blackpool's rich heritage and

examines how its colourful past is playing a key part in guaranteeing that it has a bright future.

The Tithe Maps of England and Wales - Roger J. P. Kain
1995-07-20

A reference work on the tithe maps of England and Wales for historians, geographers and lawyers.

Liberty and Authority in Victorian Britain - Peter Mandler 2006-07-20

Victorian Britain is often considered as the high point of 'laissez-faire', the place and the time when people were most 'free' to make their own lives without the aid or interference of the State. This book explores the truth of that assumption and what it might mean. It considers what the Victorian State did or did not do, what were the prevailing definitions and practices of 'liberty', what other sources of discipline and authority existed beyond the State to structure people's lives - in sum, what were the broad conditions under which such a profound belief in 'liberty' could flourish, and a complex

society be run on those principles. Contributors include leading scholars in British political, social and cultural history, so that 'liberty' is seen in the round, not just as a set of ideas or of political slogans, but also as a public and private philosophy that structured everyday life. Consideration is also given to the full range of British subjects in the nineteenth century - men, women, people of all classes, from all parts of the British Isles - and to placing the British experience in a global and comparative perspective.

Rural Society and the Anglican Clergy, 1815-1914 - Robert Lee 2006

The conduct of divine service was only one item on the agenda of the nineteenth-century clergyman. He might have to sit on the magistrates' bench, or concern himself with business as a farmer or landowner, or attend a meeting of the Poor Law guardians. He would, in all probability, be closely involved with the day-to-day running of the local

school, and he would almost certainly be the principle administrator of the parochial charities. While some of these roles were clearly predestined to bring him into conflict with certain members of his flock, others seem ostensibly designed to operate in their interests. None, however, seem to have earned him much in the way of devotion and respect: instead, each of them at one time or another attracted the direct hostility of parishioners, most particularly those attached to dissenting and/or radical groups. This book is a detailed exploration of the relationship between Anglican clergymen and the inhabitants of rural parishes in the nineteenth century. Taking Norfolk as a focus, the author examines the many and profound ways in which the Victorian Church affected the daily lives and political destinies of local communities.

Popular Conservatism and the Culture of National Government in Inter-War Britain - Geraint Thomas 2020-10-31

This radical new reading of British Conservatives' fortunes between the wars explores how the party adapted to the challenges of mass democracy after 1918. Geraint Thomas offers a fresh perspective on the relationship between local and national Conservatives' political strategies for electoral survival, which ensured that Conservative activists, despite their suspicion of coalitions, emerged as champions of the cross-party National Government from 1931 to 1940. By analysing the role of local campaigning in the age of mass broadcasting, Thomas recasts inter-war Conservatism. Popular Conservatism thus emerges less as the didactic

product of Stanley Baldwin's consensual public image, and more concerned with the everyday material interests of the electorate. Exploring the contributions of key Conservative figures in the National Government, including Neville Chamberlain, Walter Elliot, Oliver Stanley, and Kingsley Wood, this study reveals how their pursuit of the 'politics of recovery' enabled the Conservatives to foster a culture of programmatic, activist government that would become prevalent in Britain after the Second World War.

[Women on the Land](#) - Carol Twinch 2021-06-24

Women on the Land tells the remarkable story of women's contribution to agriculture and forestry during the two World Wars. It traces the formation and history of the Women's Land Army, and shows how women, mostly untrained and from non-farming backgrounds, helped maintain food production for a beleaguered nation, by filling the places of men away at the war. At the height of the First World War the Land Army had a full-time membership of 23,000 members, a number that was to exceed 80,000 during the Second World War. The book pays tribute to women like Lady Denman, who

administered the Land Army during the Second World War and who was its chief inspiration and driving force, and also outlines the part played by other women's groups in wartime. Containing many first-hand reminiscences by the women who served, and a number of evocative illustrations, *Women on the Land* highlights the years when women were effectively to challenge long-established preconceptions as to what properly constituted 'women's work'.

Romania, 1916-1941 -

Dennis Deletant 2022-08-19
This study challenges the rose-tinted view of the interwar period in Romanian history, which is often judged against the darkness of almost five decades of Communist rule. Romania, like several of the states of Eastern Europe, emerged from the First World War as it had entered it, as a predominantly agricultural country, and one of its major problems was the condition of the peasantry. This volume's focus is the drive to improve

that condition, on the collapse of democracy, and the search by Romania's leaders for strategies to secure the state, to assert the country's independence, and to maintain its territorial integrity in the face of the threat to the European order posed by two totalitarian systems, represented by Nazi Germany and the Soviet Union. By examining recent scholarship, this volume provides the most up-to-date account of Romania's predicament in the interwar years. Romania, 1916-1941 is a useful resource for upper-level undergraduates, postgraduates and scholars interested in foreign policy, politics, society, internationalization and late development in interwar Central and Eastern Europe.

Farming, Fascism and Ecology - Philip M. Coupland

Downloaded from

2016-09-19

The life of Jorian Jenks (1899-1963) has great potential to upset settled assumptions. Why did a sensitive and intelligent man from a liberal family become a fascist? How did a Blackshirt go green? The son of an eminent academic, from his childhood onwards Jenks instead longed to farm. Lacking the means to do so, he worked as a farm bailiff and then, in New Zealand, as a government agricultural instructor. Finally, a legacy permitted him to come home and become a tenant farmer. Struggling to survive in the economic depression of the 1930s, he became an author and activist for rural reconstruction. Then, having lost faith in the established parties, he joined the British Union of Fascists. Becoming one of the Blackshirts' leading figures, he was imprisoned without trial during the war. On his release, Jenks returned to the struggle, this time in the cause of ecology, becoming a pioneer of today's organic movement and a founder of the

Soil Association. This book draws on an extensive range of sources, a large proportion of which were previously unseen by historians. For the first time, it portrays the private and public life of this unusual man, revealing many hitherto un-glimpsed facets of Jenks' life.

The Enclosure Maps of England and Wales 1595-1918 - Roger Kain 2004-07

Publisher Description

[Rebels for the Soil](#) - Matthew Reed 2010-09-23

This book investigates the emergence of organic food and farming as a social movement. Using the tools of political sociology it analyzes and explains how both people and ideas have shaped a movement that from its inception aimed to change global agriculture. Starting from the British Empire in the 1930's, where the first trans-national roots of organic farming took hold, through to the internet-mediated social protests against genetically modified crops at the end of the twentieth century, the author

Downloaded from
lauradower.com on by
guest

traces the rise to prominence of the movement. As well as providing a historical account, the book explains the movement's on-going role in fostering and organising alternatives to the dominant intensive and industrial forms of agriculture, such as promoting local food produce and animal welfare. By considering it as a trans-national movement from its inception, aiming at cultural and social change, the book highlights what is unique about the organic movement and why it has risen only relatively recently to public attention. The author reports original research findings, focusing largely on the English-speaking world. The work is grounded in academic enquiry and theory, but also provides a narrative through which the movement can be understood by the more general interested reader.

Public Funding of Religions in Europe - Francis Messner
2016-04-15

This collection brings together legal scholars, canonists and political scientists to focus on the issue of public funding in support of religious activities and institutions in Europe. The study begins by revolving around the various mechanisms put in place by the domestic legal systems, as well as those resulting from the European law of human rights and the law of the European Union. It then goes on to look at state support and particular religious groups. The presentation of European and national law is supplemented by theoretical and interdisciplinary contributions, with the main focus being to bring into discussion and map the relationship between the funding of religions and the economy and to infer from it an

Downloaded from

Rural protest groups and populist political parties - Dirk Strijker 2015-11-20

Some agricultural or rural protest groups in the Western world evolved into political

parties - often of a populist nature - whereas others did not. This book is the first to explore under which conditions this happens, and to what extent current populist parties have agricultural or rural ties and related agendas. Well-known authors with a background in rural studies or in political sciences describe and analyse the situation in a number of Western countries (the United Kingdom, France, Poland, Austria, the Netherlands, Australia, Finland). The contributions in this book show that the accessibility and responsiveness of the political system and the institutionalized agrarian interest groups, as well as the existing political landscape, are influencing the decisions of rural protest groups to found a political party. However, nowadays the chances of these parties being successful are small due to the declining share of the agricultural sector within European societies. Although there will always be grounds for agrarian protest, it

seems safe to say that the heyday of agrarian populism is over.

The Blame Game - Christopher Hood 2013-12-01

The blame game, with its finger-pointing and mutual buck-passing, is a familiar feature of politics and organizational life, and blame avoidance pervades government and public organizations at every level. Political and bureaucratic blame games and blame avoidance are more often condemned than analyzed. In *The Blame Game*, Christopher Hood takes a different approach by showing how blame avoidance shapes the workings of government and public services. Arguing that the blaming phenomenon is not all bad, Hood demonstrates that it can actually help to pin down responsibility, and he examines different kinds of blame avoidance, both positive and negative. Hood traces how the main forms of blame avoidance manifest themselves in presentational and "spin" activity, the architecture of

organizations, and the shaping of standard operating routines. He analyzes the scope and limits of blame avoidance, and he considers how it plays out in old and new areas, such as those offered by the digital age of websites and e-mail. Hood assesses the effects of this behavior, from high-level problems of democratic accountability trails going cold to the frustrations of dealing with organizations whose procedures seem to ensure that no one is responsible for anything. Delving into the inner workings of complex institutions, *The Blame Game* proves how a better understanding of blame avoidance can improve the quality of modern governance, management, and organizational design.

Faithful Witness - EDITED BY ROBERT BEAKEN;

FOREWORD BY ARCHBISHOP JUSTIN WELBY 2020-09-30

In May 1931, Alan Don travelled from Dundee to Lambeth Palace to become Chaplain to Archbishop Cosmo Lang. During that journey he

Downloaded from
lauradower.com on by
guest

began a diary. He kept it faithfully for the next fifteen years, during which he also became Chaplain to the King and to the Speaker of the House of Commons. These positions afforded him a ringside view of some of the most momentous events in both British and world history - including the abdication of Edward VIII, the coronation of George VI, the rise of Hitler and the trauma of the Second World War. Now, for the first time, these fascinating diaries are laid open. They offer a wealth of detailed insight into the ecclesiastical, royal and parliamentary affairs of Britain and her élite during two historically significant decades. They also open a window on the history of the Church of England and its role in the social, political and military upheavals of the 1930s and 40s. Anyone who wants to know more about how Great Britain survived those turbulent times, will be amply rewarded by this engaging, perceptive and revealing eye-witness account.

A History of French Passions: Volume 1: Ambition, Love, and Politics

- Theodore Zeldin 1993-10-07

This is a history of the French which tries to explain their idiosyncrasies, enthusiasms and prejudices. It goes beyond the recital of events to investigate their attitudes and behaviour over an unusually wide range of activities. Volume I scrutinizes the peculiar way of thinking and of talking adopted by the French, their powerful sense of national identity, their ambivalent feelings about foreigners. It shows what it meant to be a Breton or a Provençal, an Alsatian or an Auvergnat. Volume II analyses French taste and the role of the artist. It enquires into the quality of life, the French view of happiness, friendship and comfort, humour, reactions to scientific progress, compromises with corruption and superstition. This major reinterpretation of France's achievement as a nation and of the individual experience of the French has taken its place as

Downloaded from
lauradower.com on by

one of the great works of scholarship on modern France, and now re-appears in two paperback volumes.

The Victoria History of the Counties of England - William Page 1975

The Countryside Between the Wars, 1918-1940 - John S. Creasey 1984

Labour and the Countryside - Clare V. J. Griffiths 2007-05-10

The common reputation of the British Labour Party has always been as 'a thing of the town', an essentially urban phenomenon which has failed to engage with the rural electorate or identify itself with rural issues. Yet during the inter-war years, Labour viewed the countryside as a crucial electoral battleground - even claiming that the party could never form a majority administration without winning a significant number of seats across rural Britain.

Committing itself to a series of campaigns in rural areas during the 1920s and 30s, Labour developed a rural and

often specifically agricultural programme on which to attract new support and members.

Labour and the Countryside takes this forgotten chapter in the party's history as a starting point for a fascinating and wide-ranging re-examination of the relationship between the British Left and rural Britain. The first account of this aspect of Labour's history, this book draws on extensive research across a wide variety of original source material, from local party minutes and trade union archives to the records of Labour's first two periods in government. Historical, literary, and visual representations of the countryside are also examined, along with newspapers, magazines, and propaganda materials. In reconstructing the contexts within which Labour attempted to redefine itself as a voice for the countryside, the resulting study presents a fresh perspective on the political history of the inter-war years.

Periodizing Secularization - Clive D. Field 2019-10-31

Downloaded from
lauradower.com on by
guest

Moving beyond the (now somewhat tired) debates about secularization as paradigm, theory, or master narrative, *Periodizing Secularization* focuses upon the empirical evidence for secularization, viewed in its descriptive sense as the waning social influence of religion, in Britain. Particular emphasis is attached to the two key performance indicators of religious allegiance and churchgoing, each subsuming several sub-indicators, between 1880 and 1945, including the first substantive account of secularization during the *fin de siècle*. A wide range of primary sources is deployed, many of them relatively or entirely unknown, and with due regard to their methodological and interpretative challenges. On the back of them, a cross-cutting statistical measure of 'active church adherence' is devised, which clearly shows how secularization has been a reality and a gradual, not revolutionary, process. The most likely causes of secularization were an

incremental demise of a Sabbatarian culture (coupled with the associated emergence of new leisure opportunities and transport links) and of religious socialization (in the church, at home, and in the school). The analysis is also extended backwards, to include a summary of developments during the eighteenth and early nineteenth centuries; and laterally, to incorporate a preliminary evaluation of a six-dimensional model of 'diffusive religion', demonstrating that these alternative performance indicators have hitherto failed to prove that secularization has not occurred. The book is designed as a prequel to the author's previous volumes on the chronology of British secularization - *Britain's Last Religious Revival?* (2015) and *Secularization in the Long 1960s* (2017). Together, they offer a holistic picture of religious transformation in Britain during the key secularizing century of 1880-1980.

*Labour and the Free Churches,
1918-1939* - Peter Catterall
2016-10-06

Did the Labour Party, in Morgan Phillips' famous phrase, owe 'more to Methodism than Marx'? Were the founding fathers of the party nurtured in the chapels of Nonconformity and shaped by their emphases on liberty, conscience and the value of every human being in the eyes of God? How did the Free Churches, traditionally allied to the Liberal Party, react to the growing importance of the Labour Party between the wars? This book addresses these questions at a range of levels: including organisation; rhetoric; policies and ideals; and electoral politics. It is shown that the distinctive religious setting in which Labour emerged indeed helps to explain the differences between it and more Marxist counterparts on the Continent,

and that this setting continued to influence Labour approaches towards welfare, nationalisation and industrial relations between the wars. In the process Labour also adopted some of the righteousness of tone of the Free Churches. This setting was, however, changing. Dropping their traditional suspicion of the State, Nonconformists instead increasingly invested it with religious values, helping to turn it through its growing welfare functions into the provider of practical Christianity. This nationalisation of religion continues to shape British attitudes to the welfare state as well as imposing narrowly utilitarian and material tests of relevance upon the churches and other social institutions. The elevation of the State was not, however, intended as an end in itself. What mattered were the social and individual outcomes. Socialism, for those Free Churchmen and women who helped to shape Labour in the early twentieth century,

Downloaded from
lauradower.com on by
guest

was about improving society as much as systems.

Kent in the Twentieth Century - Nigel Yates 2001

This is the sixth volume of the ten-volume history of the county of Kent. Each of the 10 chapters begins by evoking a picture of Kent on the eve of World War I and looks at the changes between then and the present day in the area under construction.

The Right in France from the Third Republic to Vichy - Kevin

Passmore 2013

Provides a new history of parliamentary conservatism and the extreme right in France during the successive crises of the years from 1870 to 1945. Charts royalist opposition to the newly established Republic, the emergence of the nationalist extreme right in the 1890s, and the parallel development of republican conservatism.

Tithe War, 1918-1939 - Carol A. Twinch 2001
