Life's Golden Ticket - Brendon Burchard 2012-08-06
A fictionalized account on one man's journey through a "theme park of life" after being implored by his dying fiancée to go and discover... Trapped in a prison of his past so he can't see the possibilities, the gifts and the choices available to

him, his journey is our journey. Based on Brendon's experience teaching and coaching, he realizes that people never transform the quality of their lives unless their hearts and minds are truly engaged in changing - they need to have a deep, emotional reason to change. This beautiful,

engaging story of love, loss and redemption will connect with people immediately. It will also cause readers to think and reflect on their lives more deeply, become more aware of their own life stories, accept their authentic selves, and become accountable for who they are. Brendon reaches out to engage hearts and minds in transforming lives with emotional edge and mental clarity. What is this golden ticket? And what kind of life does it really gain us admission to? The chapters are arranged into life lessons around 4 gates to transformation: Awareness, Acceptance, Accountability, and Action. "Whatever you do, pay the price of admission for Life's Golden Ticket! This book is entertaining, provocative and loaded with wisdom. Honestly, this is the most original book I've read in years!" (Bill Treasurer, CEO, Giant Leap Consulting and author of Right Risk - Ten Powerful Principles for Taking Giant Leaps with Your Life) "I read the story in one sitting, I just couldn't put it down. I cried, I laughed, I

cheered, I wondered where it was all going - and when I finished, I was so thankful for the journey" (K C George, Corporate Program Manager, VISA USA) "Life's Golden Ticket is wise without being preachy, inspiring without forgetting insight, entertaining without sacrificing empowerment. Brendon Burchard shows incredible depth, compassion, and wisdom on every page. He has given us a true gift." (Kelley Graham, Director, Levi Strauss & Co)

In Defense of Housing - Peter Marcuse 2016-08-16

In every major city in the world there is a housing crisis. How did this happen and what can we do about it? Everyone needs and deserves housing. But today our homes are being transformed into commodities, making the inequalities of the city ever more acute. Profit has become more important than social need. The poor are forced to pay more for worse housing. Communities are faced with the violence of displacement and

gentrification. And the benefits of decent housing are only available for those who can afford it. In *Defense of Housing* is the definitive statement on this crisis from leading urban planner Peter Marcuse and sociologist David Madden. They look at the causes and consequences of the housing problem and detail the need for progressive alternatives. The housing crisis cannot be solved by minor policy shifts, they argue. Rather, the housing crisis has deep political and economic roots—and therefore requires a radical response.

Great Leaders Have No Rules - Kevin Kruse 2019-04-02

Kevin Kruse knows two things about leadership that most people do not believe: First, leadership is a superpower. Second, almost everything we've been taught about leadership is wrong. In *Great*

Leaders Have No Rules, New York Times bestselling author and highly successful entrepreneur Kevin Kruse debunks popular wisdom with ten contrarian principles for better, faster, easier leadership. Grounded in solid research and three decades of entrepreneurial experience, this book has one purpose: to teach you how to be both the boss everyone wants to work for and the high achiever every CEO wants to hire—all without drama, stress, or endless hours in the office Inspired by Kruse's viral article "Why Successful Leaders Don't Have an Open Door Policy," this contrarian approach to leadership reveals why you should throw out the rulebook and instead play favorites, crowd your calendar, tell employees everything (even salaries), stay out of meetings, hide your phone, and more. Kruse makes the case for these principles with engaging real-world stories and case studies, and shows how to use this wisdom to buck the trend and become more effective. He also

shares applications beyond the office—at home, in sales, in sports, and more. Ultimately, his advice empowers you to focus on what matters, which is the key to success for you, your employees, and your company.

[The Motivation Manifesto](#) - Brendon Burchard 2014-10-28 "The Motivation Manifesto is a poetic and powerful call to reclaim our lives and find our own personal freedom. It's a triumphant work that transcends the title, lifting the reader from mere motivation into a soaringly purposeful and meaningful life. I love this book." —Paulo Coelho *The Motivation Manifesto* is a pulsing, articulate, ferocious call to claim our personal power. World-renowned high performance trainer Brendon Burchard reveals that the main motive of humankind is the pursuit of greater Personal Freedom. We desire the grand liberties of choice—time freedom, emotional freedom, social freedom, financial freedom, spiritual freedom. Only two enemies stand in our way: an external enemy,

defined as the social oppression of who we are by the mediocre masses, and an internal enemy, a sort of self-oppression caused by our own doubt and fear. The march to Personal Freedom, Burchard argues, can be won only by declaring our intent and independence, stepping into our personal power, and battling through self-doubt and the distractions of the day until full victory is won. Recalling the revolutionist voices of the past that chose freedom over tyranny, Burchard—at times poetic yet always

fierce—motivates us to free ourselves from fear and take back our lives once and for all.

Master Your Motivation - Susan Fowler 2019-06-04

If you want to accomplish what's important to you, discipline and willpower won't get you where you need to go.

In this iconoclastic new book, Susan Fowler reveals compelling insights and actions to help you master and maintain your motivation. Motivation is at the heart of everything you do and everything you want to do but don't. Unfortunately, the ways we typically motivate ourselves don't work. Relying on sheer determination eventually becomes exhausting—it's not sustainable. And even setting goals can backfire—if you're not setting them for the right reasons. Susan Fowler says motivation is energy, and what matters is the quality, not the quantity. Traditional “motivators” such as fear, guilt, or the promise of a reward provide low-quality, short-term energy. Drawing on the latest empirical research, she proves that high-quality, optimal motivation is a skill that you can learn and apply. Science tells us that satisfying three basic needs—for choice, connection, and competence—is essential to optimal motivation. You need to feel like you've picked your

path, not that you're being driven down it. Your goal should be linked to people or a purpose meaningful to you. And you want to continually learn and grow. Through practical exercises and eye-opening stories, Fowler shows you how to identify and shift the quality of your motivation. The skill to master your motivation is important—it may be your greatest opportunity to evolve, grow in wisdom, and be the light the world so desperately needs.

Excuses Begone! - Wayne W. Dyer 2010

Toss Out Those Tired Old Excuses...Once and for All! Within the pages of this transformational book, Dr. Wayne W. Dyer reveals how to change the self-defeating thinking patterns that have prevented you from living at the highest levels of success, happiness, and health. Even though you may know what to think, actually changing those thinking habits that have been with you since childhood might be somewhat challenging. If I changed, it would create family dramas ... I'm too old or too young ... I'm far too busy and tired ... I can't afford the things I truly want ... It would be very difficult for me to do anything differently ... and I've always been this way ... may all seem to be true, but they're in fact

just excuses. So the business of modifying habituated thinking patterns really comes down to tossing out the same tired old excuses and examining your beliefs in a new and truthful light. In this groundbreaking work, Wayne presents a compendium of conscious and subconscious crutches employed by virtually everyone, along with ways to cast them aside once and for all. You'll learn to apply specific questions to any excuse, and then proceed through the steps of a new paradigm. The old, habituated ways of thinking will melt away as you experience the absurdity of hanging on to them. You'll ultimately realize that there are no excuses worth defending, ever, even if they've always been part of your life-and the joy of releasing them will resonate throughout your very being. When you eliminate the need to explain your shortcomings or failures, you'll awaken to the life of your dreams. Excuses ... Begone!

The Age of Surveillance

Capitalism - Shoshana Zuboff
2019-01-15

The challenges to humanity posed by the digital future, the first detailed examination of the unprecedented form of power called "surveillance capitalism," and the quest by powerful corporations to predict and control our behavior. In this masterwork of original thinking and research, Shoshana Zuboff provides startling insights into the phenomenon that she has named surveillance capitalism. The stakes could not be higher: a global architecture of behavior modification threatens human nature in the twenty-first century just as industrial capitalism disfigured the natural world in the twentieth. Zuboff vividly brings to life the consequences as surveillance capitalism advances from Silicon Valley into every economic sector. Vast wealth and power are accumulated in ominous new "behavioral futures markets," where predictions about our behavior are bought and sold, and the production of goods

and services is subordinated to a new "means of behavioral modification." The threat has shifted from a totalitarian Big Brother state to a ubiquitous digital architecture: a "Big Other" operating in the interests of surveillance capital. Here is the crucible of an unprecedented form of power marked by extreme concentrations of knowledge and free from democratic oversight. Zuboff's comprehensive and moving analysis lays bare the threats to twenty-first century society: a controlled "hive" of total connection that seduces with promises of total certainty for maximum profit -- at the expense of democracy, freedom, and our human future. With little resistance from law or society, surveillance capitalism is on the verge of dominating the social order and shaping the digital future -- if we let it.
