Tintin searches the mountains of Nepal and Tibet for his friend, victim of an airplane crash.

[The Adventures of Tintin](#) - Hergé 2011

The Crab with the Golden Claws: Tintin is informed by Thomson and Thompson of a case involving the ramblings of a drunken man, later killed, found with a scrap of paper from what appears to be a tin of crab meat with the word "Karaboudjan" scrawled on it. His subsequent investigation and the kidnapping of a Japanese man interested in giving him a letter leads Tintin to a ship called the Karaboudjan, where he is abducted by a syndicate of criminals who have hidden opium in the crab tins The Shooting Star: A giant meteorite approaches the earth, observed from an observatory by Professor Decimus Phostle, while a self-proclaimed prophet, Philippulus, predicts the end of the world. The meteorite misses the earth, but a fragment of it plunges into the Arctic Ocean. Phostle determines it is made of a new material which he names Phostlite, and sets off to find it with a crew of European scientists, as well as Tintin and Snowy, in a ship helmed by Captain Haddock. The Secret of the Unicorn: When Tintin finds an old model sailing ship and gives it as a present to Captain Haddock, and exciting adventure quickly develops. From an ancient diary they learn the story of the of the ship, the Unicorn? a story of cutthroat pirates and lost treasure. Helped by their detective friends Thomson and Thompson, Tintin, Snowy, the Captain set out to uncover the secret of the Unicorn. But there are many narrow escapes for Tintin before the mystery is solved and he is ready to set off in his next strange adventure, The Hunt for Red Rackham's Treasure.

Into the Killing Seas - Michael P. Spradlin 2015-06-30

When the ship goes down, the sharks come out.... Stranded in the war torn Pacific, Patrick and his younger brother Teddy are finally homeward-bound. They've stowed away on one of the US Navy's finest ships, and now they just need to stay hidden. But Japanese torpedoes rip their dream apart. And the sinking ship isn't the worst of it. Patrick and Teddy can handle hunger and dehydration as they float in the water and wait to be rescued. If they're smart, they can even deal with the madness that seems to plague their fellow survivors. No, the real danger circles beneath the surface. And it has teeth....Based on the true events of the 1945 sinking of the USS Indianapolis, author Michael P. Spradlin tells a harrowing story of World War II.

Twenty Thousand Leagues Under the Sea - Jules Verne 2020-09-28

The year 1866 was signalled by a remarkable incident, a mysterious and puzzling phenomenon, which doubtless no one has yet forgotten. Not to mention rumours which agitated the maritime population and excited the public mind, even in the interior of continents, seafaring men were particularly excited. Merchants, common sailors, captains of vessels, skippers, both of Europe and America, naval officers of all countries, and the Governments of several States on the two continents, were deeply interested in the matter. For some time past vessels had been met by "an enormous thing," a long object, spindle-shaped, occasionally phosphorescent, and infinitely larger and more rapid in its movements than a whale. The facts relating to this apparition (entered in various log-books) agreed in most respects as to the shape of the object or creature in question, the untiring rapidity of its movements, its surprising power of locomotion, and the peculiar life with which it seemed endowed. If it was a whale, it surpassed in size all those hitherto classified in science. Taking into consideration the mean of observations made at divers times—rejecting the timid estimate of those who assigned to this object a length of two hundred feet, equally with the exaggerated opinions which set it down as a mile in width and three in length—we might fairly conclude that this mysterious being surpassed greatly all dimensions admitted by the learned ones of the day, if it existed at all. And that it DID exist was an undeniable fact; and, with that tendency which disposes the human mind in favour of the marvellous, we can understand the excitement produced in the entire world by this supernatural apparition. As to classing it in the list of fables, the idea was out of the question. On the 20th of July, 1866, the steamer Governor Higginson, of the Calcutta and Burnach Steam Navigation Company, had met this moving mass five miles off the east coast of Australia. Captain Baker thought at first that he was in the presence of an unknown sandbank; he even prepared to determine its exact position when two columns of water, projected by the mysterious object, shot with a hissing noise a hundred and

fifty feet up into the air. Now, unless the sandbank had been submitted to the intermittent eruption of a geyser, the Governor Higginson had to do neither more nor less than with an aquatic mammal, unknown till then, which threw up from its blow-holes columns of water mixed with air and vapour. Similar facts were observed on the 23rd of July in the same year, in the Pacific Ocean, by the Columbus, of the West India and Pacific Steam Navigation Company. But this extraordinary creature could transport itself from one place to another with surprising velocity; as, in an interval of three days, the Governor Higginson and the Columbus had observed it at two different points of the chart, separated by a distance of more than seven hundred nautical leagues.

[The Comics of Hergé](#) - Joe Sutliff Sanders 2016-07-28

As the creator of Tintin, Hergé (1907-1983) remains one of the most important and influential figures in the history of comics. When Hergé, born Georges Prosper Remi in Belgium, emerged from the controversy surrounding his actions after World War II, his most famous work leapt to international fame and set the standard for European comics. While his style popularized what became known as the "clear line" in cartooning, this edited volume shows how his life and art turned out much more complicated than his method. The book opens with Hergé's aesthetic techniques, including analyses of his efforts to comprehend and represent absence and the rhythm of mundaneness between panels of action. Broad views of his career describe how Hergé navigated changing ideas of air travel, while precise accounts of his life during Nazi occupation explain how the demands of the occupied press transformed his understanding of what a comics page could do. The next section considers a subject with which Hergé was himself consumed: the fraught lines between high and low art. By reading the late masterpieces of the Tintin series, these chapters situate his artistic legacy. A final section considers how the clear line style has been reinterpreted around the world, from contemporary Francophone writers to a Chinese American cartoonist and on to Turkey, where Tintin has been reinvented into something meaningful to an audience Hergé probably never anticipated. Despite the attention already devoted to Hergé, no multi-author critical treatment of his work exists in English, the majority of the scholarship being in French. With contributors from five continents drawing on a variety of critical methods, this volume's range will shape the study of Hergé for many years to come.

[Land of Black Gold](#) - Hergé 2003

The Adventures of Tintin Volume 8 - Hergé 2015-11

Join the world's most famous travelling reporter in his exciting adventures as he gets mixed up with an aeroplane hijacking in Flight 714 to Sydney and a South American revolution in Tintin and the Picaros. This volume also includes the unfinished Tintin and Alph-Art, a fascinating insight into Hergé's creative process. Flight 714 to Sydney Tintin, Captain Haddock and Professor Calculus are on their way to Sydney, Australia. Through a chance meeting they are invited to travel on board the private jet of billionaire Lazlo Carreidas. But then they fall victim to a plot to kidnap Carreidas and are captured by Tintin's arch enemy Rastapopoulos. Tintin and the Picaros Bianca Castafiore has been imprisoned by General Tapioca! Also accused of threatening Tapioca's dictatorship, Tintin, Calculus and Haddock jet off to the jungle HQ of the revolutionaries, and hatch a plot surrounding the upcoming carnival and Haddock's sudden and mysterious disgust for whisky. Tintin and Alph-Art In an interview shortly before his death, Hergé wrote of the last Tintin adventure: "The plot revolves around a tale of forgers . . . The book is set in the world of contemporary art. The narration itself is in the course of evolution. I am still doing my research and I honestly don't know where this story will lead me." Sadly, the tale was never completed, but this unique book gives an insight into the work Hergé had done on the project before he died. At the end, Tintin is about to be cast into a living sculpture by a mysterious enemy - one last cliffhanger for the world's best-loved boy journalist. Join the most iconic character in comics as he embarks on an extraordinary adventures

spanning historical and political events, and thrilling mysteries. Still selling over 100,000 copies every year in the UK and having been adapted for the silver screen by Steven Spielberg and Peter Jackson in 2011, The Adventures of Tintin continue to charm more than 80 years after they first found their way into publication. Since then an estimated 230 million copies have been sold, proving that comic books have the same power to entertain children and adults in the 21st century as they did in the early 20th.

Great White Shark Adventure - Fabien Cousteau 2019-03-05

Two young explorers join Fabien Cousteau and his team to get up close and personal with great white sharks in this start to a series of graphic adventure novels. Junior explorers Bella and Marcus join famed explorer Fabien Cousteau and his research team as they embark on an ocean journey off the coast of South Africa, where the world's largest concentrations of great white sharks are found. Their mission is to investigate a sighting of a massive white shark, and tag it so they can track and protect it. Along the way, they'll encounter whales, seals, dolphins, penguins, and a colorful array of other marine life. They'll also enter a shark cage and come face to face with these powerful creatures. Dramatic, graphic illustrations and a compelling story help young readers discover tons of facts about sharks and other marine creatures. Children will also learn the many damaging myths about sharks, why they are so misunderstood, and what is being done to protect them from further exploitation and possible extinction.

Explorers on the Moon - Hergé 2003

The world's most famous travelling reporter struggles to keep his feet on the ground as his adventures take him to the moon! Following on from the events of Destination Moon, Tintin finds himself in a rocket on a collision course with the moon. And with Snowy the dog, Captain Haddock, Professor Calculus and the Thompson twins aboard, things quickly spiral further and further out of control. Join the most iconic character in comics as he embarks on an extraordinary adventure spanning historical and political events, and thrilling mysteries. Still selling over 100,000 copies every year in the UK and having been adapted for the silver screen by Steven Spielberg and Peter Jackson in 2011. Coral Reefs of the Red Sea - Christian R. Voolstra 2019-05-07

This volume is a complete review and reference work for scientists, engineers, and students concerned with coral reefs in the Red Sea. It provides an up-to-date review on the geology, ecology, and physiology of coral reef ecosystems in the Red Sea, including data from most recent molecular studies. The Red Sea harbours a set of unique ecological characteristics, such as high temperature, high alkalinity, and high salinity, in a quasi-isolated environment. This makes it a perfect laboratory to study and understand adaptation in regard to the impact of climate change on marine ecosystems. This book can be used as a general reference, guide, or textbook.

Still selling over 100,000 copies every year in the UK and having been adapted for the silver screen by Steven Spielberg and Peter Jackson in 2011. The Adventures of Tintin continue to charm more than 80 years after they first found their way into publication. Since then an estimated 230 million copies have been sold, proving that comic books have the same power to entertain children and adults in the 21st century as they did in the early 20th.

Shutterbug Follies - Jason Little 2002

A comic murder mystery told in graphic novel format follows the adventures of Bee, a plucky, insatiably curious young woman who works as a photo-finishing technician at a one-hour photo lab in lower Manhattan, who stumbles upon the picture of a naked corpse, and embarks on a zany search to find the killer.

Prisoners of the Sun - Hergé 2014-11-14

Tintin discovers that one of the last Incan descendants has kidnapped Professor Calculus. Tintin and Captain Haddock follow the kidnapper to Peru, but can they save Calculus? Crafted for younger readers, this edition contains the original Tintin grap
