Wood and Iron - Macarena Abascal 2019-07-30

"The industrial aesthetic has crossed borders. Proof of this is the

selection of interior design projects, designers, and manufacturers included in this book. This selection takes us on a journey through New York, the cradle of this decorative style, to Singapore, London, and Istanbul. Not only does this design aesthetic infuse loft spaces which have been turned into luxurious and spacious apartments, but it's also the perfect solution for small homes, for artists who require space to live and work, and for commercial spaces. Different projects, different styles, but they all have a common nexus: the extensive use of reclaimed wood and cast iron, bringing out the beauty of imperfection"--Back cover.

Vita e cultura degli ultimi villaggi tribali d'Etiopia - Carlo Pancera
2021-02-22T00:00:00+01:00

Nella valle del fiume Omo ai confini dell'Etiopia vivono sedici minoranze etniche che hanno avuto ben scarsi cambiamenti nel corso della loro storia. L'autore ha cercato di non dare solamente un carnet di viaggio, e nemmeno una mera descrizione come negli asettici rapporti etnografici,

ma di prestare attenzione alle dinamiche sociali, in una prospettiva diacronica e storica, accennando alle correnti interne a quelle culture e alle incipienti critiche e trasformazioni in atto, e dunque rendendo la dimensione della complessità delle modifiche di mentalità.

Workers - Sebastião Salgado 1993

A collection of photographs of manual workers. The author's photographs bestow dignity on the most isolated and neglected, from refugees in the famine-stricken Sahel, to the men who swarm the gold mines of Brazil.

From My Land to the Planet - Sebastião Salgado 2014

Sebastião Salgado's photographs have been shown around the world. In *From my land to the Planet* the photographer tells us the story of his most famous reportages: from the black and white portraits of unknown men and women, workers or refugees, to the more recent Genesis project, a portrait of the most uncontaminated places of our planet. With a kindness and a disarming simplicity, Salgado rebuilds his path, exposes his beliefs, makes us witnesses of his emotions. In this volume his talent as a storyteller and the authenticity of a man who knows how to combine activism and professionalism, talent and generosity, clearly emerge. The reader will discover fascinating stories of every corner of the world, both near and remote, from Africa to the Americas, and then again the birth of the Instituto Terra, of the Genesis project, of Magnum Photos and Amazonas Images.

Cellina vin Mannstein - Imperfect - Cellina von Mannstein 2008

This collection from Cellina von Mannstein finds the beauty in flawed and funky situations. Her freewheeling images celebrate decadent excess as well as the aesthetics of disorder and confusion. Before taking up fine art and fashion photography, von Mannstein worked in film. Her

compositions hold your attention and are compellingly real. For her, telling a story -- not just creating an image -- is what it's all about. These original works have the atmosphere of dark fairytales with dream-like juxtapositions and hints of seediness. A provocative and imaginative collection from a talented young photographer Sure to appeal to fine-art enthusiasts and all who appreciate quirky imagery 113 color and b/w photographs

Africa collector's edition. Ediz. multilingue. Ediz. limitata - Michael Poliza 2006

Africa is a source of amazing bio-diversity and home to some of the planet's most spectacular landscapes. The sights of this awe-inspiring continent are captured with consummate skill and sensitivity by master lensman Michael Poliza. These images embody the soul of Africa's flora and fauna with a true artist's eye for color and composition. This book will be enjoyed for years to come. Poliza started as a child actor on German TV, then founded several highly successful IT ventures in the US and Germany. African American Tarot/ Afroamericano Tarot - Jamal R. 2007-05

The culture of two continents blends together in this one-of-a-kind tarot deck-creating a fresh perspective on what it means to be African-American. Publisher Review: Although actually more focused on African myth and lore rather than African American contributions to civilization, this deck is a wonderful introduction to both explorations as well as being close enough to the RWS tradition as to be useful as a divination tool for any Tarot reader. Great for those interested in African culture and pride, as well as for meditation and past life regressions. In-Depth Review: This deck is terrific, a wonderful resource to begin learning about African culture and history. Each card has an image [read more]

And Yet It Is Heard - Tito M. Tonietti 2014-05-16

We bring into full light some excerpts on musical subjects which were until now scattered throughout the most famous scientific texts. The main scientific and musical cultures outside of Europe are also taken into consideration. The first and most important property to underline in the scientific texts examined here is the language they are written in. This means that our multicultural history of the sciences necessarily also becomes a review of the various dominant languages used in the different historical contexts. In this volume, the history of the development of the sciences is told as it happened in real contexts, not in an alienated ideal world.

Oliviero Toscani - Oliviero Toscani 2015-11

This book is made up of over 20 articles on various themes and campaigns key to Oliviero Toscani's extraordinary career spanning over fifty years. Laid out in a magazine format, it explores the different

themes covered by his work ranging from being the creative force behind brands and advertising campaigns to his work on numerous social design projects. The book also looks in detail at Toscani himself, with contributions from some of the leading people he has worked with over the years, such as Anna Wintour, David Bowie, Bill Cunningham, Valentino and Naomi Campbell. The book features Toscani's advertising campaigns, particularly his work with Benetton from 1982 to 2000, which was some of the most shocking advertising ever seen: in some cases provoking lawsuits and the removal of Benetton clothing from stores. However, he worked wonders for the company, making it into one of the world's most recognised clothing brands - despite no items of clothing appearing in the campaigns between 1990 and 2000. Toscani's photography often depicts what no one has ever dared to explore before in advertising, such as homosexuality, racism and anorexia. This controversial approach to photography as a medium for sending provocative messages is what he is most renowned for and is looked at in detail in this book. Contents: Foreword; Introduction; over 20 themed articles including Andy Warhol's Factory; New York, New York (Vogue shoot); Jeans and Jesus; Black and White - The Benetton Years; The Balkans; No Anorexia; Made in Italy - The New Italian Landscape; Out in Africa.
